PREAMBLE

1. This Agreement, made and entered into this first day of May, 2002, by and between the Illinois Valley Contractors Association, Inc., hereinafter referred to as "Association" on behalf of those Contractors who have so authorized it and the Illinois Conference of Teamsters, hereinafter referred to as "Conference".
2. The membership of the Association is composed of numerous Contractors engaged in the Building and Construction Industry in the State of Illinois, all of whom employ persons to work in job classifications covered by this Agreement.

The membership of the Conference is composed of the various Local Unions of the International Brotherhood of Teamsters, who have affiliated with it, all of said Locals being listed elsewhere in this Agreement and all of whom represent Employees of various members of the Association who work in job classifications covered by this Agreement.

3. Recognizing that separate collective bargaining by and between each Local Union of the Conference and each individual Contractor-member of the Association would involve only those Employees of the one Contractor represented by the one Union, the parties likewise recognize that the result thereof would be the creation of numerous separate labor Agreements with differing standards of wages, hours and working conditions. This, in turn, would prevent Contractors from competing for available work on the basis of like labor costs and would create inequities and inequalities among Employees doing the same type of work in the same area. In order to avoid such undesirable circumstances and achieve the stabilization of wage rates and working conditions in the Illinois area covered by this Agreement, the parties desire and intend this to be a multi-employer, Union negotiated Agreement established for the classes of Employees involved who work in the same area for identical wages, hours and working conditions, regardless of the Contractor for whom they work or the Local Union which represents them.

This Agreement is an effort by the parties to implement those improvements which will encourage buyers of construction services to utilize the Employers and Employee Unions signatory to this Agreement.

As a means of accomplishing the objectives and purposes stated in the third paragraph above, the Association has been authorized to negotiate the terms and provisions of this Agreement for and on behalf of those Contractors who have so authorized them and the Conference has likewise been authorized to so negotiate for and on behalf of the Local Unions.

It is further agreed that the liability of the Employers who accept, adopt or sign this Agreement, or a facsimile thereof, shall be several and not joint and the liability of the

Teamsters Local Unions, who accept, adopt or sign this Agreement or a facsimile thereof, shall be several and not joint.

ARTICLE 1 - RECOGNITION

1. The Association agrees to recognize the Illinois Conference of Teamsters, who is party to this Agreement, as the sole and exclusive joint collective bargaining Representative for and on behalf of all Employees working on such equipment in classifications covered by this Agreement. It is understood, however, that in order to insure orderly procedure in the administration of the terms of this Agreement, the Association and the Conference shall be fully authorized and empowered to act for and on behalf of the respective members of the Association and Local Unions who are parties to this Agreement and to bind them by actions taken in connection therewith.

The Conference recognizes the Association as the bargaining agent for all Employers who have so authorized the Association for all work covered hereunder. The Association agrees to furnish to the Union, lists of such Employers prior to May 1, 2002, and upon request thereafter.

ARTICLE 2 - SCOPE

1. It is hereby understood and agreed that this Agreement shall cover construction work throughout the State of Illinois, except in the counties of Cook, DuPage, Grundy, Kane, Kankakee, Kendall, Lake, McHenry, Will, Dekalb, Boone, Winnebago, Stephenson and those parts of Lee County east of Route 251 and those parts of Ogle County east of Route 251 and north of Route 72 and the city of Rochelle and those parts of JoDaviess County east of Route 78 but not including the city of Stockton and those parts of Carroll County north of Route 72 and east of 78 and that part of Livingston County other than within the townships of Reading, New Town, Sunbury, Nevada, Long Point and Amity and that part of Woodford County east of Route 251 and north of Route 24, the part of McLean County north of a line starting at the intersection of the McLean-Woodford Counties line and Route 24 in a southeasterly direction to the farthest south-southwestern corner of Livingston County, that part of Ford County north of a line from the southeastern corner of Livingston County east to the Ford-Iroquois Counties line and that part of Iroquois County other than within the townships of Pigeon Grove, Fountain Creek, Lovejoy, Prairie, Green, Milford and Stockland and Scott County, Iowa. Any additional territory to come under this Agreement shall be allocated to the areas as mutually agreed between the Conference, the Association and any Local Union affiliated with the International Brotherhood of Teamsters, negotiating for such additional territory covered by this Agreement.

2. Prior to May 1, 2002, the Conference agrees to furnish the Association a detailed map or other suitable description of the current territorial jurisdiction of the Conference and each of its affiliated Local Unions covered by this Agreement. The Conference further agrees to promptly notify and furnish the Association with all necessary information pertaining to any change in the territorial jurisdiction of any affiliated Local Union covered by this Agreement.
3. This Agreement covers all employees transporting material and/or performing work in classifications covered in Article 11 upon construction sites. This Agreement also covers employee drivers on trucks delivering aggregate materials to stockpile, from stockpile to stockpile, or when hauling from quarry to stockpile (as provided in Article 29, Section 1) on construction sites or to temporary plants or locations, the purpose of which is to serve particular construction sites, and employee drivers on any other vehicles operated on construction projects when used to defeat the purpose of this Agreement. This Agreement also covers employees when hauling aggregate on oil and chip resealing projects. This Agreement excludes clerical employees, technical engineers, bookkeepers, superintendents, foremen, or other supervisory personnel, owner/operators/independent contractors; but such persons may be or become a member of the Local Union if such person should be acceptable to said Union or International.
4. Subject to the provisions of Article 4, the Contractor shall have entire freedom of selectivity in hiring and the Contractor retains the right to reject any job applicant referred by the Local Union. The Contractor may discharge any Employee for justifiable cause, subject to the grievance procedure, provided there shall be no discrimination on the part of the Contractor against any Employee, nor shall any such Employee be discharged by reason of any Union activity not interfering with the proper performance of his work.

ARTICLE 3 - UNION SECURITY

1. It is understood and agreed by and between the parties hereto that as a condition of continued employment and effective after the seventh (7th) day following the beginning of employment or the execution of this Agreement, whichever is the later, all persons hereafter employed to work within the Bargaining Unit which is the subject of this Agreement, as well as all persons presently so working but who are not members of one of the Local Unions referred to herein, shall become members of the particular Local Union having jurisdiction for representation purposes over the geographical area within which such persons then work. It is further understood and agreed that as a condition of continued employment all persons who are presently members in good standing of one of the Local Unions referred to therein or who hereafter become such shall be required to pay the periodic dues of the Local Union having jurisdiction for representation purposes over the geographical area within which such persons work a majority of the time, figured on a month by month basis.

2. The obligation of persons to become Union members shall be construed to consist of their obligation to pay or offer to pay the applicable Union initiation fee and periodic dues. Their obligation to pay periodic dues shall not be construed so as to require such payments to more than one Local Union in any one month.
3. The failure of any person to become a member of a Local Union in the manner within the time above provided for shall obligate his/her Employer, upon written notice from the Union to such effect and to the further effect that Union membership was available to such person on the same terms and conditions generally available to other members to forthwith discharge such person. Further, the failure of any person to pay the monthly period dues required shall, upon written notice from the Union to his/her Employer to such effect, obligate his/her Employer to discharge him/her forthwith.
4. In the event an Employer having received proper written notice, fails to discharge an Employee for failure to become or remain a member as herein provided, he/she shall be considered in direct violation of this Agreement. If the Employer has reason to believe that the Union has not complied with this Article, the Employer shall, within seventy-two (72) hours after receiving notice, excluding Sundays and Holidays, investigate and meet with the Union to adjust or comply with the requirements. If an Agreement or settlement is not reached, the Union shall have the express right to resort to full economic recourse in support of its demands, notwithstanding anything elsewhere contained in this Agreement. In case the Employee is discharged at the written request of the Union and the National Labor Relations Board holds discrimination, the Union agrees to assume financial responsibility for the loss of wages resulting from the Employee's discharge.

ARTICLE 4 - PROCUREMENT OF LABOR

The Union and the Employer recognize the fact that the Union's knowledge and experience within the industry here involved, together with the sources of competent manpower available to it, can aid the Employer in recruiting needed Employees who can meet the standards of the trade and who can promote the efficiency of the operation of the Employer. Because of the fact that there are several Local Unions bound by the terms of this Agreement, the Employer agrees when going from one referral area to another referral area to notify the Local Union before the start of any work within the geographical area of that particular Local Union.

The Employer and the Union agree that:

- a. The Union will maintain a list of persons available for employment. The rules and regulations for the maintenance of such list are as set forth below.

- S
A
M
P
L
E
- b. The Employer shall request the Referral Office serving the area in which the job is located to refer applicants and the Referral Office shall make such referral promptly but within at least twenty-four (24) hours.
 - c. The Employer, in requesting referral of applicants shall specify to the Referral Office - (1) the number of applicants to be employed, (2) work to be performed, (3) location of the project, (4) the nature of the construction project, (5) such additional information as is deemed pertinent by the Employer in order to enable the Union to make the proper referral of applicants.
 - d. The Referral Office shall refer to the Employer such applicants as are competent and qualified to fulfill the requirements of the position sought to be filled commensurate with the rotation of registration and who have acquired experience and possess the required skills for the fulfillment of the vacant position as specified by the Employer.

The Local Union shall be obligated to see that those referred to a job have the proper license to perform the work for which they have been referred.

- e. The Union recognizes the Employer's legitimate interests in requesting former Employees. To effect this objective the Employer shall furnish the Referral Office with a list of such Employees who have worked for him/her during the past 36 months. If such requested person is not working and has registered for referral, then the Union may refer such requested to employee to the Employer.
- f. An Employer may transfer Employees presently employed from the area of one Local Union to another Local Union in whose area such Employer has a construction job or project provided no more than thirty-three and a third percent (33 1/3%) of the working force consists of transferred Employees unless mutually agreed to otherwise between that Local Union where the work is to be performed and the Employer, said thirty three and a third percent (33 1/3%) will not be allowed to transfer until the Local Union where the transfer is taking place has the first sixty-six and two thirds percent (66 2/3%). The mechanic shall be permitted to transfer irrespective of the proration of Employees at that time.

Before so doing, the Employer shall notify and have a Pre-Job Conference with the Union of the area in which the Employees are to work and furnish in advance, the number, names and addresses of Employees the Employer desires to transfer, together with the number of other persons to be employed for like work. Provided further, only persons working under this Agreement may be so transferred.

Only transfers made in accordance with the provisions of this Section of this Agreement may be accepted, all other workers must be procured in accordance with the other provisions of this Agreement and these rules.

- g. Qualified applicants for referral who are registered at one Local Union may be referred by request from another Local Union only when there are no qualified registrants at the former office available for referral. Such applicants, if employed as a request of referral, shall have the status of temporary Employees and be subject to displacement by regular registrants at that referral office when they become unemployed if the regular registrants are qualified to perform the work.
- h. If for any reason the Referral Office is unable to furnish qualified and competent applicants within twenty-four (24) hours of the time that the request is made of the Referral Office, the Employer may procure applicants from any other source or sources. If men/women are so employed, the Employer will, within twenty-four (24) hours of such employment, furnish to the Referral Office serving the area the names of such new Employees.
- i. The provisions of this Article shall be posted by the Employer at its premises where notices to Employees and applicants for employment are customarily posted and shall be posted by the Union at its offices where notices to applicants for referral are customarily posted.
- j. The registration of and selection of applicants for referral shall not be based on or in any way affected by Union membership, by Union by-laws, rules and regulations, constitutional provisions or any other aspect or obligation of Union membership; nor shall any supervisor in the employ of any Employer who holds Union membership be bound or, in any way, affected in the performance of his/her duty for the Employer by any obligation of Union membership, by-laws, rules and regulations or constitution of the Union.

It is agreed that neither the Employer nor the Union shall engage in or encourage employment practices which discriminate against applicants or Employees on the basis of race, age, color, creed, sex, ~~or~~ national origin, disabilities, Vietnam-era veterans, disabled veterans or any other characteristic protected by law.

- k. The Employer reserves and shall have the right to accept or reject, to employ or not to employ, any person furnished by the Referral Office. Further, the Employer may discharge, for just cause, any Employee who has been accepted but who subsequently proves unsatisfactory to the Employer, subject to the grievance procedure.

Prior to hiring any person, the Employer shall have the right to require the person to take a physical examination by a doctor specified by the Employer at the sole expense of the Employer. However, the Employer's right to reject the person based on such physical examination shall be limited to objections which indicate the person is not capable of doing the work to which he/she would be assigned, that he/she could be dangerous to himself/herself or to others because of such objections, or that he/she could reasonably be

expected to aggravate an existing physical impairment condition by performing the work to which he/she is to be assigned.

- l. The Employer shall be the sole judge of, and have the right to determine the number of Employees required on any job, or any portion of the work being done by the Employer. There shall be no restriction as to the use of machinery, tools or appliances.
- m. In completing any given job, termination of employment shall be in reverse order of hiring, providing Employees shall have the ability and qualifications. This is not intended to restrict or expand area seniority practices in effect.
- n. An applicant for employment, who is aggrieved by an action of the Union with respect to registration or referral under this provision or, who is aggrieved by action of the Employer in connection with hire hereunder, may within ten (10) days of the occurrence of the event which constitutes the basis for the grievance, file a written statement of the grievance with the Union and the Employer. Upon such filing the grievance shall be considered and disposition thereof made within ten (10) days by a Board consisting of a Representative of the Union, a Representative of the Association and an impartial Chairman appointed jointly by the Association and the Union. Such Board shall consider the grievance and render a decision which shall be final and binding. The Board is authorized to issue procedure rules for the conduct of its business, but is not authorized to add to, subtract from or modify any of the provisions relating to the referral arrangement. The cost of the third party shall be borne equally by all parties involved.
- o. In the event the rules and regulations set forth herein are not adhered to by the Local Union Referral Office, or in the event that a Local Union Referral Office operates in any manner in contradiction to the laws of the State of Illinois and the United States, or in the event the Local Union Referral Office uses the referral hall as a method of attempting to coerce Employees or Employers in any manner in violation of the spirit of this Article or by furnishing Employees on a discriminatory basis, then an Employer may file a written complaint with the Union, which complaint shall be subject to the Grievance and Arbitration Procedure as set forth in Article 23 of this Agreement.

In the event an Arbitration Board, as set out in Article 23, finds that the Local Union involved was in violation of this Section with any one Employer, thereafter, that Employer may resort to any source that he/she may choose for the recruitment of needed Employees and that Local Union shall not have preferential rights for the referral of Employees to this Employer throughout the remaining time of this Agreement or during the time the Employer remains in the area of the Local Union involved.

- p. The Illinois Conference of Teamsters and its affiliated Locals agree that they will indemnify and save the Employer harmless against all claims, demands, actions, damages, orders and

decrees for the payment of penalties and back wages or either of them or other forms of liability whatsoever that may arise out of or by reason of action taken, or the failure to act when obligated to do so, by the Illinois Conference of Teamsters, its affiliated Local Unions and its Representatives, in connection with the operation of the non-discriminatory provisions governing the operation of the Referral Office.

RULES & REGULATIONS OF REFERRAL OFFICES

1. The following procedure shall govern the operation of the Referral Offices of Local Unions of the Illinois Conference of Teamsters. Before these rules shall be modified, changed or amended, the Association and the Union agree that they shall mutually agree to such changes of procedure. Referral Officers or other Agents of the Union shall have no authority to change any of these procedures. When the masculine pronoun appears in this Agreement it shall be deemed to refer to both male and female Employees.
2. Each Local Referral Office shall maintain a single list of applicants for regular employment and a separate single list for Owners-Drivers.
3. When an applicant desires to place his/her name on the referral list he/she shall fill out an application for employment which, among other things, shall show his/her previous employment experiences and the names of the Employers and the job for which he/she is competent. The information shall be available to the Employer.
4. An applicant may place his/her name upon the registration list providing he/she is unemployed. Applicants shall be placed upon a list serially by the date, number, or time of their application. Upon taking a job and actually working five (5) days or more with one Employer the Union shall strike their name from the list and it shall remain off the said list until said applicant re-registers. The applicant will notify the Union where and when he is working.
5. Registration shall be on a non-discriminatory basis and shall not be affected by race, age, creed, color, sex or national origin.
6. Local Union Referral Offices shall be opened for the registering of applicants at least two (2) hours during each normal working day, or eight (8) hours of each week.
7. When requested by an applicant Referral Officers shall notify any applicant as to his/her serial standing in the registration list of applicants. Referral Officers shall refer applicants to jobs from the top of said list in accordance with their qualifications and competence to fill the request of the Employer unless, however, the Employer has called for an applicant by name or by other terms as set forth in the basic work Agreement.

8. “Available for Work” shall mean that the registrant is ready, able and willing to go to the job site at the time requested and perform work for which he/she is being referred. It is the responsibility of the registrant at the time of registering to give the Referral Office instructions as to how the registrant can be contacted for referral. Registrant shall give clear instructions as to telephone number, address or other means of communication, because Employers frequently need workers on short notice. Any registrant who is sent out to fill a request for men/women and who refuses employment or quits shall be placed at the bottom of the registration list as of the date he/she refuses hire or quits.
9. The Referral Office shall keep records as to the jobs each registrant is sent showing the job and classification to which he/she is referred or if he/she has not been referred even though he/she is at the top of said list, the reason he/she is not being referred.
10. If any registrant questions the application of these rules to his/her case, he/she will be referred to the Local Union Business Agent or Referral Officer and given the address and telephone number where he/she can obtain a prompt review of the matter. A copy of these rules and regulations shall be posted at the place of registration and the application list shall be available to Employers as well as notations concerning each applicant. Each applicant shall have a right to file a grievance when aggrieved pursuant to the basic labor Agreement between the parties. Qualified applicants for referral who are registered at one Referral Office may be referred by request from another office only when there are no qualified registrants at the later office available for referral for work. Such applicants, if employed as a result of referral, shall have the status of temporary Employees and be subject to displacement by regular registrants at that Referral Office when they become unemployed if the regular registrants are qualified to perform the work.
11. If any applicant has been referred to an Employer and is hired, that Employer may continue the Employee in his/her employment by transferring him/her to a different job site. Even though the said job to which he/she is transferred is operated under a joint venture Agreement which the Employer is a member, or if the job is operated under a different corporation or partnership name but involves the same principals, provided the job is in the same local area.
12. If an Employer takes over the activities of another Employer at a particular job site the Employee of the latter may continue to operate at that job site for the Employer taking over without further registration or referral if the Employer so desires and if he/she does not, he/she may refer to the Referral Office for new Employees. In either case, the Referral Office shall be notified of the change.

REFERRAL RULES – CONSTRUCTION

The referral of workers from this Referral Office is governed by the terms of a contract between the Illinois Valley Contractors Association and the Illinois Conference of Teamsters and its affiliated Local Union #722. Under these Agreements and in conformity with law, preference in order of referral is based upon prior service in the construction industry and in the area. Only when all such workers have been referred are those without such prior service entitled to be referred to the Contractor.

Membership in the Local Union having work and area jurisdiction is required as a condition of employment from those workers who have been employed in the construction industry and Local Union area jurisdiction for a period of seven (7) days either continuously or accumulatively on jobs covered by the Labor Agreement.

Qualified applicants for referral who are registered at one Referral Office may be referred by request from another office only when there are no qualified registrants at the latter office available for referral for the work. Such applicants, if employed as a result of referral, shall have the status of temporary Employees and be subject to displacement by regular registrants at the Referral Office when they become unemployed if the regular registrants are qualified to preform the work.

Since these matters are established by contract and by law, no person can vary these rules.

I acknowledge that I have read the contract and Referral Rules posted at the Referral Office and agree to comply therewith.

ARTICLE 28 - OWNER-DRIVER

The term "Owner-Driver" means an individual, who in addition to being employed to perform services covered by this Agreement is also the owner of the equipment he/she uses. Legal or equitable title must be in the name of the driver. The following provisions shall apply to all Owner-Drivers engaged to perform work covered hereunder except those who may be used as subcontractors pursuant to Article 8 above.

The Owner-Driver shall be carried on the payroll of the Employer as an Employee and as such, all the terms and conditions of this Agreement, including Article 4, Procurement of Labor, shall be applicable to he/she. A separate referral list will be kept for Owner-Drivers.

Separate checks shall be issued by the Employer for driver's wages and equipment. The amount of the check for the driver's wages shall not reduce the amount received for equipment compensation.

The Employer expressly reserves the right to control the manner, time, means and details of, and by which the Owner-Driver performs his/her services, as well as the ends to be accomplished and shall be the sole judge of the capability of the Owner-Driver's equipment to perform the work required to be performed.

The terms and provisions of this Article are to apply only to single trucks owned and operated by an Employee covered by this Agreement and shall not apply to a situation in which an Employee covered by this Agreement or any other person rents a truck which is not to be operated by the owner of such truck.

The parties further agree to establish a special Joint Committee to develop workable guidelines for determining who is an Owner-Operator/Independent Sub-Contractor versus an Owner-Operator/Employee. The Committee shall base its guidelines on common law rules.

ARTICLE 29 - HAULING & STOCKPILING

(Four (4) hour periods are intended to divide the work day in half.) Except, however, if an Employee starts to work at the construction rate, but because of inclement weather is transferred to maintenance chipping or stockpiling work, he/she shall be paid not less than four (4) hours at the construction rate, and actual hours worked thereafter at the applicable rate for the work performed.

ARTICLE 30 - ALCOHOL & NON-PRESCRIPTION DRUGS

The possession, sale or use of alcohol or non-prescription drugs during working hours shall be grounds for termination. Any Employee who reports for work under the influence of alcohol or non-prescription drugs shall be subject to termination. “*Non-prescription Drugs*” shall be defined as drugs which cannot be legally dispensed without a prescription and are not covered by a currently valid prescription, endorsed by a qualified physician for use by named Employee in question.

Drug Abuse Policy for Truck Drivers

PURPOSE - It is the policy and goal of the Employer to provide a safe, healthy and drug free work environment for all truck drivers driving trucks weighing over 26,000 lbs. or hauling hazardous materials. To insure that we achieve that goal, we have adopted the following policy that meets Federal Motor Carrier Safety requirements pertaining to drug abuse, as more fully set forth in Title 49 Code of Federal Regulations (CFR) Part 40 (which has also been adopted by the Illinois Department of Transportation for intrastate drivers).

PROHIBITED ACTIVITY - The unlawful manufacture, distribution, dispensation, sale, possession or use of an illegal drug (as defined in 49 CFR Part 40) is strictly prohibited on all Employer premises or other locations at which the driver is to perform work, or in any Employer owned or leased motor vehicle. The Employer will not hire or retain any driver who uses or possesses any illegal drug.

The Employer will not retain drivers who after a positive test and completion of rehabilitation again test positive for drug use.

Illegal drugs shall be those controlled substances specified in 49 CFR Part 40 (See Drugs Tested For) (See Definitions).

The Employer will maintain a pre-employment drug screening program designed to preclude hiring or contracting with any driver who tests positive on a drug test.

Any driver who sells or otherwise dispenses illegal drugs to others on Employer premises, or in or from an Employer owned or leased or contracted motor vehicle is subject to immediate termination (See Disciplinary Action).

Possession, sale of or use of illegal drugs anywhere during working hours or on Employer premises is strictly prohibited and shall be grounds for immediate termination (See Disciplinary Action).

WHEN TESTED - The Employer will require drug testing in accordance with Federal Motor Carrier Safety Regulations, as set forth in 49 CFR Part 40.

1. **Pre-employment** - For purposes of assuring compliance with Federal Motor Carrier Safety Requirements, applicants for driving, Employee Drivers, drivers and Owner-Operators/Independent Contractors will be required to take and successfully pass an initial urine drug test.

Drivers who are not actually working on December 21, 1990, and who have been or will be recalled to work after that date, will be tested in the same manner as applicants for employment, and discipline will be as indicated in the section on “Disciplinary Action”.

Tests may not be required for new hires or recalled drivers if the individual can substantiate that he has been in a proper drug testing program within the previous thirty (30) days and either (a) tested negative within six (6) months prior to his application or recall to work or (b) participated in a proper drug testing program for the previous twelve (12) months prior to his application or recall.

Subsequent recalls will not require a drug test unless the individual has not been tested within two years (2) prior to recall.

2. **Random** - All Employees covered by this policy will be included as part of the Drug Test consortium group from which the Medical Review Officer (MRO) will randomly select 50% each year for testing per the requirements of the law.

On a periodic basis during the construction season the MRO will select randomly a number of names (that on an annual basis will equal 50% of the total group) for random testing during that month.

Names selected will be forwarded to each Employer who will notify their Employees selected to be tested. The Employer will be given a date before which the individual must be tested. The persons to be tested shall not be informed before the actual test is to be performed.

Failure of the Employer to accomplish the above requirements in the time allotted will cause them to be out of compliance with the random testing requirements.

3. **Bi-Annual (Periodic)** - Drivers shall be required to submit to a urine drug test at least every two (2) years, not later than the bi-annual medical examination as required by the Federal Motor Carrier Safety Regulations. Periodic tests may be discontinued after the driver has been tested in conjunction with his first annual physical after the beginning of the drug testing program and has been tested once for pre-employment or has been tested once under the random program.

4. **Reasonable Cause Testing** - The Employer may require urinalysis testing of an Employee whom the Employer has reasonable cause to suspect of being under the influence of a drug. A documented summary of the facts supporting the requirement shall be made available to the Employee prior to the actual test. Documentation shall also be provided to the Union Steward or Union Representative (if available) when issuing the request for an Employee to submit to a drug test under this policy, and shall permit the Union Steward or Union Representative a reasonable amount of time (not to exceed one (1) hour) to travel to and consult with the Employee prior to the Employee being tested.

If an Employee loses work time because of reasonable cause testing under this policy, the Employer will pay the Employee for such lost time, provided the Employee's test results are ultimately reported as negative.

5. **Post-Accident** - (A) Post-accident urine testing will be required of those Employees who are involved in a reportable accident if the driver receives a citation for a moving traffic violation arising from the accident. A reportable accident is one in which: (a) a fatality occurs or (b) an individual injured in the accident immediately receives medical treatment away from the accident scene or total property damage equals \$4,400.00 or more.

(B) The post-accident urine test shall be conducted as soon as possible but not later than thirty-two (32) hours after the reportable or fatal accident. The Employer shall permit the Union Steward or Union Representative a reasonable amount of time (not to exceed one (1) hour) to travel to and consult with the Employee prior to the Employee being tested.

(C) A driver who is seriously injured and cannot provide a specimen at the time of the accident shall provide the necessary authorization for obtaining hospital records and reports that would indicate if a controlled substance was in the driver's system.

(D) Disqualification for refusal to give a urine sample when a driver has been involved in a fatal accident, except for a driver who meets the conditions of (C) shall be for a period of one (1) year via a letter stating his refusal to be tested (See Disciplinary Action) (See Definitions).

- (E) A driver shall be disqualified via a letter of disqualification for a one (1) year period for a positive test of a controlled substance when the driver has been involved in a fatal accident (See Disciplinary Action) (See Definitions).

RESULTS OF REFUSAL - Refusal or failure to submit to such drug testing will automatically be considered a positive test result, and the driver will be declared medically unqualified to drive for the Employer. Such drivers will be subject to disciplinary action.

Where the Employee appears unable or unwilling to give a specimen at the time of the collection, collection personnel shall document the circumstances on a drug-test report form. The Employee shall be permitted no more than eight (8) hours to give a sample, during which time he shall remain in the testing area under observation. All time for which an Employee is required to expend in providing a sample shall be considered work time and the Employee shall be paid for such time pursuant to the provisions of the parties' Collective Bargaining Agreement. Reasonable amounts of water may be given to the Employee to encourage urination. Failure to submit to a sample shall be considered a refusal to submit to a drug test (unless medical evidence for the physical inability to provide a sample is provided and documented).

DRUGS TESTED FOR - The drug screening tests selected shall be capable of identifying marijuana, cocaine, opiates (morphine & codeine), phencyclidine (PCP), and amphetamines (amphetamines, methamphetamine) or other drugs that may be specified by future Motor Carrier Safety Regulations.

HOW TESTED - Personnel utilized for testing will be certified as qualified to collect samples and adequately trained in collection procedures.

The laboratory selected to conduct the analysis shall be certified by the Department of Health & Human Services.

The laboratory will use an initial immunoassay screen. Negative results will be immediately reported to the MRO. Positive results will be retested using the gas chromatography/mass spectrometry screen. Reports that are positive on this second screen will be reported as positive to the MRO.

TEST RESULTS - Concentrations of a drug at or above the following levels shall be considered a positive test result when using the initial immunoassay drug screening test:

S

Level - Nanogram/Milliliter (hereafter referred to as ng/ml)

Marijuana metabolite.....	100
Cocaine metabolite.....	300

* 25 ng/ml is immunoassay-specific for free morphine.

Concentrations of a drug at or above the following levels shall be considered a positive test result when performing a confirmatory Gas Chromatography/Mass Spectrophotometry test on a urine specimen that tested positive using a technologically different initial screening method:

Positive urine drug test results will be reviewed by a Medical Review Officer (MRO) to determine whether the driver is medically qualified to drive.

If there is a positive test result, the MRO will give the driver tested an opportunity to discuss the results and provide documentation of legally prescribed medication.
