

Illinois Department of Transportation

2300 South Dirksen Parkway / Springfield, Illinois / 62764

June 9, 2017

SUBJECT: FAU Route 3545 (IL 56 / Butterfield Rd.)
Project STP-3545(008)
Section (543-R & 561) RS-6
DuPage County
Contract No. 62D15
Item No. 85, June 16, 2017 Letting
Addendum A

NOTICE TO PROSPECTIVE BIDDERS:

Attached is an addendum to the plans or proposal. This addendum involves revised and/or added material.

1. Revised pages 86 & 87 of the Special Provisions

Prime contractors must utilize the enclosed material when preparing their bid and must include any Schedule of Prices changes in their bidding proposal.

Bidders using computer-generated bids are cautioned to reflect any and all Schedule of Prices changes, if involved, into their computer programs.

Very truly yours,

Maureen M. Addis, P.E.
Engineer of Design and Environment

REMOVAL AND DISPOSAL OF REGULATED SUBSTANCES

This work shall be according to Article 669 of the Standard Specifications and the following:

Qualifications. The term environmental firm shall mean an environmental firm with at least five (5) documented leaking underground storage tank (LUST) cleanups or that is pre-qualified in hazardous waste by the Department. Documentation includes but not limited to verifying remediation and special waste operations for sites contaminated with gasoline, diesel, or waste oil in accordance with all Federal, State, or local regulatory requirements and shall be provided to the Engineer for approval. The environmental firm selected shall not be a former or current consultant or have any ties with any of the properties contained within and/or adjacent to this construction project.

General. This **Revised Special Provision** will likely require the Contractor to subcontract for the execution of certain activities.

All contaminated materials shall be managed as either “uncontaminated soil” or non-special waste. This work shall include monitoring and potential sampling, analytical testing, and management of a material contaminated by regulated substances. The Environmental Firm shall continuously monitor all soil excavation for worker protection and soil contamination. **Phase I Preliminary Engineering information is available through the District’s Environmental Studies Unit.** Soil samples or analysis without the approval of the Engineer will be at no additional cost to the Department. The lateral distance is measured from centerline and the farthest distance is the offset distance or construction limit whichever is less.

The Contractor shall manage any excavated soils and sediment within the following areas:

Intersection of Butterfield Road and Commonwealth Lane

- All excavation planned at the northwest quadrant at the intersection of Butterfield Road and Commonwealth Lane, Elmhurst. This material meets the criteria of Article 669.09(a)(1) and shall be managed in accordance to Article 669.09. Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of Butterfield Road and Spring Road

- All excavation planned at the northeast quadrant at the intersection of Butterfield Road and Spring Road, Elmhurst. This material meets the criteria of Article 669.09(a)(5) and shall be managed in accordance to Article 669.09. Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of Butterfield Road and Spring Road

- All excavation planned at the northwest quadrant, southwest quadrant, and southeast quadrant at the intersection of Butterfield Road and Spring Road, Elmhurst. This material meets the criteria of Article 669.09(a)(1) and shall be managed in accordance to Article 669.09. Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Revised 6/9/17

Intersection of Butterfield Road and Prospect Avenue

- All excavation planned at the southeast quadrant at the intersection of Butterfield Road and Prospect Avenue, Elmhurst. This material meets the criteria of Article 669.09(a)(1) and shall be managed in accordance to Article 669.09. Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of Butterfield Road and Euclid Avenue

- All excavation planned at the northeast quadrant, northwest quadrant and southwest quadrant at the intersection of Butterfield Road and Euclid Avenue, Elmhurst. This material meets the criteria of Article 669.09(a)(1) and shall be managed in accordance to Article 669.09. Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of Butterfield Road and Kirk Avenue

- All excavation planned at the southwest quadrant at the intersection of Butterfield Road and Kirk Avenue, Elmhurst. This material meets the criteria of Article 669.09(a)(1) and shall be managed in accordance to Article 669.09. Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of Butterfield Road and York Street

- All excavation planned at the northeast quadrant, and southeast quadrant at the intersection of Butterfield Road and York Street, Elmhurst. This material meets the criteria of Article 669.09(a)(5) and shall be managed in accordance to Article 669.09. Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of Butterfield Road and York Street

- All excavation planned at the northwest quadrant, and southwest quadrant at the intersection of Butterfield Road and York Street, Elmhurst. This material meets the criteria of Article 669.09(a)(1) and shall be managed in accordance to Article 669.09. Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of Butterfield Road and Chatham Avenue

- All excavation planned at the southwest quadrant, and southeast quadrant at the intersection of Butterfield Road and Chatham Avenue, Elmhurst. This material meets the criteria of Article 669.09(a)(1) and shall be managed in accordance to Article 669.09. Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.

Intersection of Butterfield Road and High Avenue

- All excavation planned at the northwest quadrant, and northeast quadrant at the intersection of Butterfield Road and High Avenue, Elmhurst. This material meets the criteria of Article 669.09(a)(1) and shall be managed in accordance to Article 669.09. Potential contaminants of concern sampling parameters: VOCs, SVOCs and Metals.
