

# Illinois Department of Transportation

2300 South Dirksen Parkway / Springfield, Illinois / 62764

January 8, 2020

SUBJECT: FAU Route 3524 (Northwest Highway)  
Project STP-2S1A(443)  
Section (120Y&86B)RS-1  
Cook County  
Contract No. 62G17  
Item No. 3, January 17, 2020 Letting  
Addendum A

## NOTICE TO PROSPECTIVE BIDDERS:

Attached is an addendum to the plans or proposal. This addendum involves revised and/or added material.

1. Revised the Schedule of Prices.
2. Revised pages 30-32 of the Special Provisions.
3. Revised sheets 1, 3-5, 10, 14, 20, 44, 63 and 73 of the Plans.

Prime contractors must utilize the enclosed material when preparing their bid and must include any changes to the Schedule of Prices in their bid.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Jack A. Elston'.

Jack A. Elston, P.E.  
Bureau Chief, Design and Environment

**STATUS OF UTILITIES (D-1)**

Effective: June 1, 2016

Utility companies and/or municipal owners located within the construction limits of this project have provided the following information in regard to their facilities and the proposed improvements. The tables below contain a description of specific conflicts to be resolved and/or facilities which will require some action on the part of the Department's contractor to proceed with work. Each table entry includes an identification of the action necessary and, if applicable, the estimated duration required for the resolution.

UTILITIES TO BE ADJUSTED

Conflicts noted below have been identified by following the suggested staging plan included in the contract. The company has been notified of all conflicts and will be required to obtain the necessary permits to complete their work; in some instances resolution will be a function of the construction staging. The responsible agency must relocate or complete new installations as noted in the action column; this work has been deemed necessary to be complete for the Department's contractor to then work in the stage under which the item has been listed.

Single Stage construction. No Staging.

STAGE / LOCATION	TYPE	DESCRIPTION	RESPONSIBLE AGENCY	ACTION
Various	Manholes	AT&T Conduits	AT&T	44 Adjustments
65+46 29RT 65+58 29RT 116+24 26RT 116+10 26RT 181+64 19LT 181+75 19LT	Manhole	ComEd Underground Cables	ComEd	6 Adjustments

The following contact information is what was used during the preparation of the plans as provided by the Agency/Company responsible for resolution of the conflict.

Revised 1/8/2020

Agency/Company Responsible to Resolve Conflict	Name of contact	Address	Phone	e-mail address
AT&T	Janet C. Ahern	1000 Commerce Drive Oak Brook, IL 60523	(630) 573-6414	<a href="mailto:ja1763@att.com">ja1763@att.com</a>
ComEd	Terri Bleck	1500 Franklin Blvd. Libertyville, IL 60048	(847) 816-5239	<a href="mailto:terri.bleck@ComEd.com">terri.bleck@ComEd.com</a>
Nicor	Michal Ann Beyke	1844 Ferry Rd Naperville, IL 60563	(630) 388-2761	<a href="mailto:mbeyke@southernco.com">mbeyke@southernco.com</a>

**UTILITIES TO BE WATCHED AND PROTECTED**

The areas of concern noted below have been identified by following the suggested staging plan included for the contract. The information provided is not a comprehensive list of all remaining utilities, but those which during coordination were identified as ones which might require the Department's contractor to take into consideration when making the determination of the means and methods that would be required to construct the proposed improvement. In some instances the contractor will be responsible to notify the owner in advance of the work to take place so necessary staffing on the owners part can be secured.

Single stage construction, No staging.

STAGE / LOCATION	TYPE	DESCRIPTION	OWNER	ACTION

Revised 1/8/2020

The following contact information is what was used during the preparation of the plans as provided by the owner of the facility.

Agency/Company Responsible to Resolve Conflict	Name of contact	Address	Phone	e-mail address

The above represents the best information available to the Department and is included for the convenience of the bidder. The days required for conflict resolution should be taken into account in the bid as this information has also been factored into the timeline identified for the project when setting the completion date. The applicable portions of the Standard Specifications for Road and Bridge Construction shall apply.

Estimated duration of time provided in the action column for the first conflicts identified will begin on the date of the executed contract regardless of the status of the utility relocations. The responsible agencies will be working toward resolving subsequent conflicts in conjunction with contractor activities in the number of days noted.

The estimated relocation dates must be part of the progress schedule submitted by the contractor. A utility kickoff meeting will be scheduled between the Department, the Department's contractor and the utility companies. The Department's contractor is responsible for contacting J.U.L.I.E. prior to any and all excavation work.

**SELECTIVE CLEARING**

**Description.** This work shall consist of extensive removal and disposal of shrubs, brush, debris (including rocks, bottles, etc.) and selected trees up to six (6) inches (150 mm) in diameter. All trees and shrubs to be saved shall be carefully protected as provided by Article 201.05 of the Standard Specifications. Locations for Selective Clearing and vegetation to be cleared or saved shall be designated by the Roadside Development Unit. Please contact a representative of the Roadside Development Unit at (847) 705-4171 at least 10 days prior to work.

The undesirable trees and brush (Siberian Elm, Russian Olive, Mulberry, etc.) shall be cut flush with the ground and all stubs or stumps shall be treated within 2 hours after cutting with a tinted re-sprout herbicide approved by the Engineer to prevent re-growth from the stumps. Trees of Tree of Heaven and Buckthorn shall not be cut off as specified above but shall be pulled or grubbed in such a manner as to insure complete removal. Branches on remaining trees shall be pruned off up to 6 feet (2 meters) from the ground.

All cleared areas shall be graded, trimmed, smoothed, and finished uniformly to the satisfaction of the Engineer with equipment approved by the Engineer. Disposal of material shall be done in accordance with Article 202.03.
