### **PREQUALIFICATION**

Any contractor who desires to become pre-qualified to bid on work advertised by IDOT must submit the properly completed pre-qualification forms to the Bureau of Construction no later than 4:30 p.m. prevailing time twenty-one days prior to the letting of interest. This pre-qualification requirement applies to first time contractors, contractors renewing expired ratings, contractors maintaining continuous pre-qualification or contractors requesting revised ratings. To be eligible to bid, existing pre-qualification ratings must be effective through the date of letting.

### **REQUESTS FOR AUTHORIZATION TO BID**

Contractors downloading and/or ordering CD-ROM's and are wanting to bid on items included in a particular letting must submit the properly completed "Request for Authorization to Bid/or Not For Bid Status" (BDE 124INT) and the ORIGINAL, signed and notarized, "Affidavit of Availability" (BC 57) to the proper office no later than 4:30 p.m. prevailing time, three (3) days prior to the letting date.

### **WHO CAN BID ?**

**WHAT CONSTITUTES WRITTEN AUTHORIZATION TO BID?** When a prospective prime bidder submits a "Request for Authorization to Bid/or Not For Bid Status"(BDE 124INT) he/she must indicate at that time which items are being requested For Bidding purposes. Only those items requested For Bidding will be analyzed. After the request has been analyzed, the bidder will be issued a **Proposal Denial and/or Authorization Form**, approved by the Central Bureau of Construction, that indicates which items have been approved For Bidding. If **Authorization to Bid** cannot be approved, the **Proposal Denial and/or Authorization Form** will indicate the reason for denial.

**ABOUT AUTHORIZATION TO BID:** Firms that have not received an authorization form within a reasonable time of complete and correct original document submittal should contact the department as to status. This is critical in the week before the letting. These documents must be received three days before the letting date. Firms unsure as to authorization status should call the Prequalification Section of the Bureau of Construction at the number listed at the end of these instructions.

**ADDENDA AND REVISIONS:** It is the contractor's responsibility to determine which, if any, addenda or revisions pertain to any project they may be bidding. Failure to incorporate all relevant addenda or revisions may cause the bid to be declared unacceptable.

Each addendum will be placed with the contract number. Addenda and revisions will also be placed on the Addendum/Revision Checklist and each subscription service subscriber will be notified by e-mail of each addendum and revision issued.

The Internet is the Department's primary way of doing business. The subscription server e-mails are an added courtesy the Department provides. It is suggested that bidder check IDOT's website <http://www.dot.il.gov/desenv/delett.html> before submitting final bid information.

**IDOT is not responsible for any e-mail related failures.**

In discharging this duty, they are charged by law to use all available information, reasonable efforts, and reasonable actions to protect, safeguard, and maintain the procurement process of the State of Illinois.

By execution of the Proposal Signature Sheet, the bidder indicates that each of the mandated assurances has been read and understood, that each certification is made and understood, and that each disclosure requirement has been understood and completed.

**C.** In addition to all other remedies provided by law, failure to comply with any assurance, failure to make any disclosure or the making of a false certification shall be grounds for termination of the contract and the suspension or debarment of the bidder.

#### **II. ASSURANCES**

**A.** The assurances hereinafter made by the bidder are each a material representation of fact upon which reliance is placed should the Department enter into the contract with the bidder. The Department may terminate the contract if it is later determined that the bidder rendered a false or erroneous assurance, and the surety providing the performance bond shall be responsible for the completion of the contract.

##### **B. Felons**

**TO BE RETURNED WITH BID**

**IV. DISCLOSURES**

**A.** The disclosures hereinafter made by the bidder are each a material representation of fact upon which reliance is placed should the Department enter into the contract with the bidder. The Department may terminate the contract if it is later determined that the bidder rendered a false or erroneous disclosure, and the surety providing the performance bond shall be responsible for completion of the contract.

**B. Financial Interests and Conflicts of Interest**

1. Section 50-35 of the Illinois Procurement Code provides that all bids of more than \$10,000 shall be accompanied by disclosure of the financial interests of the bidder. This disclosed information for the successful bidder, will be maintained as public information subject to release by request pursuant to the Freedom of Information Act.

The financial interests to be disclosed shall include ownership or distributive income share that is in excess of 5%, or an amount greater than 60% of the annual salary of the Governor, of the bidding entity or its parent entity, whichever is less, unless the contractor or bidder is a publicly traded entity subject to Federal 10K reporting, in which case it may submit its 10K disclosure in place of the prescribed disclosure. If a bidder is a privately held entity that is exempt from Federal 10K reporting, but has more than 400 shareholders, it may submit the information that Federal 10K companies are required to report, and list the names of any person or entity holding any ownership share that is in excess of 5%. The disclosure shall include the names, addresses, and dollar or proportionate share of ownership of each person making the disclosure, their instrument of ownership or beneficial relationship, and notice of any potential conflict of interest resulting from the current ownership or beneficial interest of each person making the disclosure having any of the relationships identified in Section 50-35 and on the disclosure form.

In addition, all disclosures shall indicate any other current or pending contracts, proposals, leases, or other ongoing procurement relationships the bidding entity has with any other unit of state government and shall clearly identify the unit and the contract, proposal, lease, or other relationship.

2. Disclosure Forms. Disclosure Form A is attached for use concerning the individuals meeting the above ownership or distributive share requirements. Subject individuals should be covered each by one form. In addition, a second form (Disclosure Form B) provides for the disclosure of current or pending procurement relationships with other (non-IDOT) state agencies. **The forms must be included with each bid or incorporated by reference.**

**C. Disclosure Form Instructions**

**Form A: For bidders that have previously submitted the information requested in Form A**

The Department has retained the Form A disclosures submitted by all bidders responding to these requirements for the April 24, 1998 or any subsequent letting conducted by the Department. The bidder has the option of submitting the information again or the bidder may check the following certification statement indicating that the information previously submitted by the bidder is, as of the date of submission, current and accurate. Before checking this certification, the bidder should carefully review its prior submissions to ensure the Certification is correct. If the Bidder checks the Certification, the Bidder should proceed to Form B instructions.

**CERTIFICATION STATEMENT**

**I have determined that the Form A disclosure information previously submitted is current and accurate, and all forms are hereby incorporated by reference in this bid. Any necessary additional forms or amendments to previously submitted forms are attached to this bid.**

**Form A: For bidders who have NOT previously submitted the information requested in Form A**

If the bidder is a publicly traded entity subject to Federal 10K reporting, the 10K Report may be submitted to meet the requirements of Form A. If a bidder is a privately held entity that is exempt from Federal 10K reporting, but has more than 400 shareholders, it may submit the information that Federal 10K companies are required to report, and list the names of any person or entity holding any ownership share that is in excess of 5%. If a bidder is not subject to Federal 10K reporting, the bidder must determine if any individuals are required by law to complete a financial disclosure form. To do this, the bidder should answer each of the following questions. A "YES" answer indicates Form A must be completed. If the answer to each of the following questions is "NO", then the NOT APPLICABLE STATEMENT on the second page of Form A must be signed and dated by a person that is authorized to execute contracts for the bidding company. Note: These questions are for assistance only and are not required to be completed.

1. Does anyone in your organization have a direct or beneficial ownership share of greater than 5% of the bidding entity or parent entity? YES \_\_\_ NO \_\_\_
2. Does anyone in your organization have a direct or beneficial ownership share of less than 5%, but which has a value greater than \$102,600.00? YES \_\_\_ NO \_\_\_
3. Does anyone in your organization receive more than \$102,600.00 of the bidding entity's or parent entity's distributive income? (Note: Distributive income is, for these purposes, any type of distribution of profits. An annual salary is not distributive income.) YES \_\_\_ NO \_\_\_
4. Does anyone in your organization receive greater than 5% of the bidding entity's or parent entity's total distributive income, but which is less than \$102,600.00? YES \_\_\_ NO \_\_\_

(Note: Only one set of forms needs to be completed per person per bid even if a specific individual would require a yes answer to more than one question.)

A "YES" answer to any of these questions requires the completion of Form A. The bidder must determine each individual in the bidding entity or the bidding entity's parent company that would cause the questions to be answered "Yes". Each form must be signed and dated by a person that is authorized to execute contracts for your organization. **Photocopied or stamped signatures are not acceptable.** The person signing can be, but does not have to be, the person for which the form is being completed. The bidder is responsible for the accuracy of any information provided.

If the answer to each of the above questions is "NO", then the NOT APPLICABLE STATEMENT on page 2 of Form A must be signed and dated by a person that is authorized to execute contracts for your company.

**Form B: Identifying Other Contracts & Procurement Related Information** Disclosure Form B must be completed for each bid submitted by the bidding entity. Note: *Checking the NOT APPLICABLE STATEMENT on Form A does not allow the bidder to ignore Form B. Form B must be completed, checked, and dated or the bidder may be considered nonresponsive and the bid will not be accepted.*

The Bidder shall identify, by checking Yes or No on Form B, whether it has any pending contracts (including leases), bids, proposals, or other ongoing procurement relationship with any other (non-IDOT) State of Illinois agency. If "No" is checked, the bidder only needs to complete the check box on the bottom of Form B. If "Yes" is checked, the bidder must do one of the following:

Option I: If the bidder did not submit an Affidavit of Availability to obtain authorization to bid, the bidder must list all non-IDOT State of Illinois agency pending contracts, leases, bids, proposals, and other ongoing procurement relationships. These items may be listed on Form B or on an attached sheet(s). Do not include IDOT contracts. Contracts with cities, counties, villages, etc. are not considered State of Illinois agency contracts and are not to be included. Contracts with other State of Illinois agencies such as the Department of Natural Resources or the Capital Development Board must be included. Bidders who submit Affidavits of Availability are suggested to use Option II.

Option II: If the bidder is required and has submitted an Affidavit of Availability in order to obtain authorization to bid, the bidder may write or type "See Affidavit of Availability" which indicates that the Affidavit of Availability is incorporated by reference and includes all non-IDOT State of Illinois agency pending contracts, leases, bids, proposals, and other ongoing procurement relationships. For any contracts that are not covered by the Affidavit of Availability, the bidder must identify them on Form B or on an attached sheet(s). These might be such things as leases.

**D. Bidders Submitting More Than One Bid**

Bidders submitting multiple bids may submit one set of forms consisting of all required Form A disclosures and one Form B for use with all bids. Please indicate in the space provided below the bid item that contains the original disclosure forms and the bid items which incorporate the forms by reference.

- The bid submitted for letting item \_\_\_\_\_ contains the Form A disclosures or Certification Statement and the Form B disclosures. The following letting items incorporate the said forms by reference:

A false or fraudulent certification shall, in addition to all other remedies provided by law, be a breach of contract and may result in termination of the contract.

**4. AWARD CRITERIA AND REJECTION OF BIDS.** This contract will be awarded to the lowest responsive and responsible bidder considering conformity with the terms and conditions established by the Department in the rules, Invitation for Bids and contract documents. The issuance of plans and proposal forms for bidding based upon a prequalification rating shall not be the sole determinant of responsibility. The Department reserves the right to determine responsibility at the time of award, to reject any or all proposals, to readvertise the proposed improvement, and to waive technicalities.

### **SPECIAL PROVISIONS**

The following Special Provisions supplement the "Standard Specifications for Road and Bridge Construction," adopted January 1, 2007, the latest edition of the "Manual on Uniform Traffic Control Devices for Streets and Highways," and the "Manual of Test Procedures for Materials" in effect on the date of invitation for bids, and the Supplemental Specifications and Recurring Special Provisions indicated on the Check Sheet included herein which apply to and govern the construction of Various Routes, D-7 Weed Control Spraying 2008 in Various Counties and in case of conflict with any part or parts of said Specifications, the said Special Provisions shall take precedence and shall govern.

#### **LOCATION OF PROJECT**

The work consists of a spring application of herbicide weed control spray mixture upon selected right of way on various routes in various counties in District #7. The application shall include all locations as shown on the maps.

#### **DESCRIPTION OF PROJECT**

Maps showing the locations and amount of work involved are included in the proposal. Due to the varying dimensions of the areas to be sprayed on the roads included herein, it is imperative that the bidder make an inspection of these roads prior to submitting a bid.

#### **COMPLETION DATE**

The application in this contract shall be accomplished between April 11, 2008, and May 12, 2008.

#### **TRAFFIC CONTROL PLAN**

Traffic Control shall be in accordance with the applicable sections of the Standard Specifications for Road and Bridge Construction, the applicable guidelines contained in the Illinois Manual on Uniform Traffic Control Devices for Streets and Highways, these Special Provisions, and any special details and Highway Standards contained herein and in the plans.

Special attention is called to Articles 107.09 and 107.14 of the Standard Specifications for Road and Bridge Construction, the following Highway Standards relating to traffic control.

Highway Standards:

701311 701426 701901

Protection of Traffic: The road shall be kept open to traffic at all times and the Contractor shall conduct the work in such a manner as to insure the least obstruction of vehicular traffic. At no time shall any equipment stop on the pavement open to traffic.

The Contractor's spray truck shall be equipped with two amber flashing lights visible from the front and back. A 48" diamond sign containing the message "SLOW MOVING VEHICLE", in black 8" "Series C" letters, on an orange reflectorized background, shall be mounted on the back of the truck at a height of 5 feet above the pavement. The spray unit shall at all times be followed by a vehicle equipped with flashing amber lights and a truck mounted attenuator.

Standard 701311: This standard shall be used when the Contractor is working on a two-lane, two-way roadway.

Standard 701426: This standard shall be used when the Contractor is working on the interstate or multi-lane highway. A commercially built "arrow board", Type B or C, and "SLOW MOVING VEHICLE" sign trailing the spray unit may be used in lieu of the sign assembly as shown on Standard 701426, if approved by the Engineer.

## **CONTRACTOR'S LIABILITY**

The Contractor shall not spray any area containing native or Japanese honeysuckle, deciduous or evergreen trees, shrubs, or vines within 2 feet of desirable shrub beds or under the drip line of desirable trees, unless specifically directed to do so by the Engineer.

He shall at all times exercise extreme caution to prevent damage to residential planting, flower or vegetable gardens, farm crop, or desirable plants adjacent to the roadside and adhere to the provisions of Section 107.

The Contractor shall be responsible for all damages or claims as provided in Article 107.26 and 107.31 of the Standard Specifications. The Contractor shall contact a complainant within 10 days after receiving a claim for damages either by letter or in person. The contractor or his authorized representative shall make a personal contact with the complainant within 30 days.

The Regional Engineer shall also be notified by the Contractor of all claims for damages he received and shall keep the Regional Engineer informed as to the progress in arriving at a settlement for such claims. The Contractor shall exercise caution to prevent pollution and endangering of species as provided in Article 107.23 of the Standard Specifications. The Contractor shall shut off all spray heads when passing over streams and drainage ways.

## **2,4-D AND PICLORAM MIXTURE**

Equipment. The capacity of the equipment shall be sufficient to perform the work as specified and shall meet the approval of the Engineer.

The equipment shall consist of a truck-mounted tank, pump, spray bar, and hand spray gun, together with the necessary accessories. Except as otherwise hereinafter specified, the material tank shall have a capacity of not less than one thousand gallons of mixed material, and all tanks shall be calibrated in one hundred gallon increments for measurement of mixed material. The pump shall have a volume and pressure capacity range sufficient to deliver the mixture at a pressure to provide the required coverage and to keep the spray pattern full and steady without pulsation or excessive pressure to cause fogging. The pressure shall be sufficient to operate both the spray bar and the hand gun simultaneously when necessary. A quick-acting shut-off valve shall be provided to stop the spray pattern when necessary with a minimum of drip. The spray bar may be equipped with multiple low-pressure nozzles or broad jet-type nozzles. If different sizes or types of nozzles are used to make up the spray pattern, the pressure, sizes, capacity, and mounting heights must be adjusted to provide a uniform rate of application for each segment of the spray pattern.

The hand spray gun shall be used only for spraying steep slopes, around planted areas, around signs, and other locations inaccessible by truck. When right-of-ways are encountered which are wider than twice the width of the spray pattern, plus the pavement width, the Contractor will be required to traverse the right-of-way with the regular spray equipment or to provide a small off-road spray unit. This smaller unit may either be a tractor, truck, or trailer-mounted and shall have a tank capacity of not less than one hundred gallons. This smaller unit shall also be designed to spray on steep slopes and rough terrain at a constant speed of five miles per hour or less, if necessary, in order to make the spray applications upon the entire area. Unless sources of water are readily available along the section of highway being sprayed, a water supply truck with ample capacity to maintain continuous operation shall be supplied.

The equipment proposed for use on the contract shall be in operational condition and available for inspection by the Engineer three weeks prior to the time spraying operations are to be started.

If the Engineer so desires, the Contractor may be required to demonstrate the calibration of his equipment at the time spraying operations are started.

Experience. The Contractor shall observe and comply with all sections of the Custom Spray Law, including licensing, and shall have had at least one (1) season's experience in the use of weed control chemicals in spraying highway right of way or at least three (3) season's experience in their use in farm or custom spraying.

Certification of Personnel. Prior to starting work, the Contractor shall furnish to the Resident Engineer visual proof that all personnel on the job are properly licensed by the Illinois Department of Agriculture under the provisions of the Illinois Custom or Public Applications of Pesticides Act. The Resident Engineer shall record in the project records book the names and license number of each person.

Material. The herbicide used shall be a water soluble mixture of 2,4-D and Picloram (Tordon 101 or equivalent). The Contractor shall submit a certificate by the manufacturer which includes the following:

1. Pounds per gallon of 2,4-D.
2. Pounds per gallon of Picloram.
3. A statement that the chemical, when mixed with water, shall be soluble and remain in suspension with continuous agitation.

Performance of Work. The Contractor must notify the Landscape Office 48 hours prior to commencement of spraying, to verify calibration of the equipment. Specifically, the spray rate per nozzle and ground speed of equipment, including quantity and mixture of chemical in solution with water, to achieve the required application rate per mile/acre as described in the specifications.

The herbicides used shall be a water soluble mixture of 2,4D, Picloram, water and drift control agent. The resultant mixture shall be uniformly applied to the roadside at such a rate that each acre will receive one half (1/2) gallon of 39.6% active ingredient 2,4D, and one half (1/2) gallon of 10.2% active ingredient Picloram. The herbicide and drift control agent shall be measured separately for each load, using calibrated containers approved by the Resident Engineer. The mixture shall be continuously agitated after mixing.

The amount of equipment and the number of experienced personnel shall be sufficient for completion of each spray application as specified in the proposal, during the time periods specified in the Application Section. The Contractor's Supervisor shall be present and on the job at all times.

The weed spray applications shall be made during daylight hours only.

The Contractor shall have the right to skip areas which he feels cannot be successfully sprayed without the possibility of seriously damaging vegetation on private property adjoining the highway. The Engineer shall be informed in advance of any such areas the Contractor may propose to skip in order that mutual agreement may be reached regarding the skipping of the areas. Areas of special ground cover plantings shall not be sprayed.

Bid Requirements. Each bidder shall submit along with his returned bid proposal a current specimen label and manufacturer's specification sheet containing a statement of the ingredients and a USDA registration number for the materials being bid on.

Inspection. It shall be the responsibility of the Contractor to assure that the samples of the herbicides with the correct lot, batch, or shipment numbers are submitted to the Bureau of Materials by the manufacturer.

Within fifteen (15) calendar days after the date of the award of the purchase order, the manufacturer shall have submitted and received approval of his preliminary sample. He shall also have scheduled his production such that within twenty (20) calendar days after approval of the preliminary sample, he shall have made his first delivery and shall continue deliveries uninterrupted until the order has been completed.

The right is reserved to inspect the chemicals either at the place of manufacture or at the destination or both places. If inspected at the place of manufacture, the manufacturer shall furnish such facilities as may be required for collection and forwarding samples of the herbicide for testing, and shall also furnish facilities for performing the inspection of the herbicide during the process of manufacture if required. Acceptance or rejection will be based on the tests on these samples. During the manufacturing operations, the Department of Transportation representatives shall have free entry at all times to such parts of the plant as are concerned with the manufacturing of the herbicide.

Satisfactory inspection reports from the Bureau of Materials with appropriate lot, batch, or shipment numbers shall be presented by the Contractor at the preconstruction conference. Under no circumstances shall work on this contract commence without these inspection reports.

Method of Measurement. The herbicide will be measured in gallons of mixture accepted and applied.

Basis of Payment: This work will be paid for at the contract unit price per Gallon of 2,4-D and Picloram (Tordon 101) only, NO SUBSTITUTIONS. The water, drift control agent, surfactant, equipment and personnel necessary to perform the work will not be paid for separately but will be included in the contract unit price for the above pay item.

## **ENVIRONMENTAL RESTRICTIONS**

The Illinois Department of Conservation, Endangered Species Protection Program, has identified endangered species along the spray routes of this contract. The Contractor shall not spray within 150 feet of a natural area or the identified occurrence of a Endangered or Threatened Species, in addition to the provisions contained in the CONTRACTOR'S LIABILITY section of this contract.

### General Restrictions for Weed Spraying

1. No spraying within 150 feet of an Illinois Natural Areas Inventory site, Nature Preserve or an occurrence of an endangered or threatened species.
2. No spraying over water.
3. No spraying when wind velocities exceed 15 miles per hour.
4. No spraying under wet or threatening rainfall conditions when the probability is small that the spray materials will remain on the foliage for at least several hours after spraying.
5. No spraying in temperatures in excess of 90 degrees F.
6. No spraying during malfunction of equipment if uniform coverage is not obtained.
7. No spraying if prescribed safety equipment is not functioning properly.

## **EQUIPMENT RENTAL RATES (BDE)**

Effective: August 2, 2007

Revised: January 2, 2008

Replace the second and third paragraphs of Article 105.07(b)(4)a. of the Standard Specifications with the following:

“Equipment idled which cannot be used on other work, and which is authorized to standby on the project site by the Engineer, will be paid for according to Article 109.04(b)(4).”

Replace Article 109.04(b)(4) of the Standard Specifications with the following:

“(4) Equipment. Equipment used for extra work shall be authorized by the Engineer. The equipment shall be specifically described, be of suitable size and capacity for the work to be performed, and be in good operating condition. For such equipment, the Contractor will be paid as follows.

- a. Contractor Owned Equipment. Contractor owned equipment will be paid for by the hour using the applicable FHWA hourly rate from the “Equipment Watch Rental Rate Blue Book” (Blue Book) in effect when the force account work begins. The FHWA hourly rate is calculated as follows.

$$\text{FHWA hourly rate} = (\text{monthly rate}/176) \times (\text{model year adj.}) \times (\text{Illinois adj.}) + \text{EOC}$$

Where: EOC = Estimated Operating Costs per hour (from the Blue Book)

The time allowed will be the actual time the equipment is operating on the extra work. For the time required to move the equipment to and from the site of the extra work and any authorized idle (standby) time, payment will be made at the following hourly rate:  $0.5 \times (\text{FHWA hourly rate} - \text{EOC})$ .

All time allowed shall fall within the working hours authorized for the extra work.

The rates above include the cost of fuel, oil, lubrication, supplies, small tools, necessary attachments, repairs, overhaul and maintenance of any kind, depreciation, storage, overhead, profits, insurance, and all incidentals. The rates do not include labor.

The Contractor shall submit to the Engineer sufficient information for each piece of equipment and its attachments to enable the Engineer to determine the proper equipment category. If a rate is not established in the Blue Book for a particular piece of equipment, the Engineer will establish a rate for that piece of equipment that is consistent with its cost and use in the industry.

- b. Rented Equipment. Whenever it is necessary for the Contractor to rent equipment to perform extra work, the rental and transportation costs of the equipment plus five percent for overhead will be paid. In no case shall the rental rates exceed those of established distributors or equipment rental agencies.

All prices shall be agreed to in writing before the equipment is used.”

**PAYMENTS TO SUBCONTRACTORS (BDE)**

Effective: June 1, 2000

Revised: January 1, 2006

Federal regulations found at 49 CFR §26.29 mandate the Department to establish a contract clause to require Contractors to pay subcontractors for satisfactory performance of their subcontracts and to set the time for such payments.

State law also addresses the timing of payments to be made to subcontractors and material suppliers. Section 7 of the Prompt Payment Act, 30 ILCS 540/7, requires that when a Contractor receives any payment from the Department, the Contractor shall make corresponding, proportional payments to each subcontractor and material supplier performing work or supplying material within 15 calendar days after receipt of the Department payment. Section 7 of the Act further provides that interest in the amount of two percent per month, in addition to the payment due, shall be paid to any subcontractor or material supplier by the Contractor if the payment required by the Act is withheld or delayed without reasonable cause. The Act also provides that the time for payment required and the calculation of any interest due applies to transactions between subcontractors and lower-tier subcontractors and material suppliers throughout the contracting chain.

This Special Provision establishes the required federal contract clause, and adopts the 15 calendar day requirement of the State Prompt Payment Act for purposes of compliance with the federal regulation regarding payments to subcontractors. This contract is subject to the following payment obligations.

When progress payments are made to the Contractor according to Article 109.07 of the Standard Specifications, the Contractor shall make a corresponding payment to each subcontractor and material supplier in proportion to the work satisfactorily completed by each subcontractor and for the material supplied to perform any work of the contract. The proportionate amount of partial payment due to each subcontractor and material supplier throughout the contracting chain shall be determined by the quantities measured or otherwise determined as eligible for payment by the Department and included in the progress payment to the Contractor. Subcontractors and material suppliers shall be paid by the Contractor within 15 calendar days after the receipt of payment from the Department. The Contractor shall not hold retainage from the subcontractors. These obligations shall also apply to any payments made by subcontractors and material suppliers to their subcontractors and material suppliers; and to all payments made to lower tier subcontractors and material suppliers throughout the contracting chain. Any payment or portion of a payment subject to this provision may only be withheld from the subcontractor or material supplier to whom it is due for reasonable cause.

This Special Provision does not create any rights in favor of any subcontractor or material supplier against the State or authorize any cause of action against the State on account of any payment, nonpayment, delayed payment, or interest claimed by application of the State Prompt Payment Act. The Department will not approve any delay or postponement of the 15 day requirement except for reasonable cause shown after notice and hearing pursuant to Section 7(b) of the State Prompt Payment Act. State law creates other and additional remedies available to any subcontractor or material supplier, regardless of tier, who has not been paid for

work properly performed or material furnished. These remedies are a lien against public funds set forth in Section 23(c) of the Mechanics Lien Act, 770 ILCS 60/23(c), and a recovery on the Contractor's payment bond according to the Public Construction Bond Act, 30 ILCS 550.

**REFLECTIVE SHEETING ON CHANNELIZING DEVICES (BDE)**

Effective: April 1, 2007

Revise the seventh paragraph of Article 1106.02 of the Standard Specifications to read:

“At the time of manufacturing, the retroreflective prismatic sheeting used on channelizing devices shall meet or exceed the initial minimum coefficient of retroreflection as specified in the following table. Measurements shall be conducted according to ASTM E 810, without averaging. Sheeting used on cones, drums and flexible delineators shall be reboundable as tested according to ASTM D 4956. Prestriped sheeting for rigid substrates on barricades shall be white and orange.

Initial Minimum Coefficient of Retroreflection candelas/foot candle/sq ft (candelas/lux/sq m) of material				
Observation Angle (deg.)	Entrance Angle (deg.)	White	Orange	Fluorescent Orange
0.2	-4	365	160	150
0.2	+30	175	80	70
0.5	-4	245	100	95
0.5	+30	100	50	40”

Revise the first sentence of the first paragraph of Article 1106.02(c) of the Standard Specifications to read:

“Barricades and vertical panels shall have alternating white and orange stripes sloping downward at 45 degrees toward the side on which traffic will pass.”

Revise the third sentence of the first paragraph of Article 1106.02(d) of the Standard Specifications to read:

“The bottom panels shall be 8 x 24 in. (200 x 600 mm) with alternating white and orange stripes sloping downward at 45 degrees toward the side on which traffic will pass.”

**SUBCONTRACTOR MOBILIZATION PAYMENTS (BDE)**

Effective: April 2, 2005

To account for the preparatory work and operations necessary for the movement of subcontractor personnel, equipment, supplies, and incidentals to the project site and for all other work or operations that must be performed or costs incurred when beginning work approved for subcontracting in accordance with Article 108.01 of the Standard Specifications, the Contractor shall make a mobilization payment to each subcontractor.

This mobilization payment shall be made at least 14 days prior to the subcontractor starting work. The amount paid shall be equal to 3 percent of the amount of the subcontract reported on form BC 260A submitted for the approval of the subcontractor's work.

This provision shall be incorporated directly or by reference into each subcontract approved by the Department.
