SUBJECT: FAP Route 309 Project NHF-0309 (010) Section 16R-2 Whiteside County Contract No. 64969 Item No. 94, March 10, 2006 Letting Addendum A

## NOTICE TO PROSPECTIVE BIDDERS:

Attached is an addendum to the plans or proposal. This addendum involves revised and/or added material.

- 1. Revised sheets 9, 11 & 22 of the Plans.
- 2. Revised pages 3 & 10 of the Schedule of Prices.
- 3. Revised page iii of the Table of Contents to the Special Provisions.
- 4. Added pages 149 & 150 to the Special Provisions.

Prime contractors must utilize the enclosed material when preparing their bid and must include any Schedule of Prices changes in their bidding proposal.

Bidders using computer-generated bids are cautioned to reflect any and all Schedule of Prices changes, if involved, into their computer programs.

Very truly yours,

Michael L. Hine Engineer of Design and Environment

Setter abechlyon A.E.

By: Ted B. Walschleger, P. E. Engineer of Project Management

# CONCRETE GUTTER (SPECIAL)

Effective February 21, 2006

This work shall be completed in accordance with Section 606 of the Standard Specifications and according to the details in the plans.

This work will be paid for at the contract unit price per FOOT for CONCRETE GUTTER (SPECIAL) which price shall include all labor, materials and equipment necessary to complete the work.

## NON-SPECIAL WASTE WORKING CONDITIONS

This work shall be according to Article 669 of the Standard Specifications for Road and Bridge Construction adopted January 1, 2002 and the following:

<u>Qualifications</u>. The term environmental firm shall mean an environmental firm with at least five (5) documented leaking underground storage tank (LUST) cleanups or that is pre-qualified in hazardous waste by the Department. Documentation includes but not limited to verifying remediation and special waste operations for sites contaminated with gasoline, diesel, or waste oil in accordance with all Federal, State, or local regulatory requirements and shall be provided to the Engineer for approval. The environmental firm selected shall not be a former or current consultant or have any ties with any of the properties contained within and/or adjacent to this construction project.

<u>General.</u> Implementation of this Special Provision will likely require the Contractor to subcontract for the execution of certain activities. It will be the Contractor's responsibility to assess the working conditions and adjust anticipated production rates accordingly.

The Contractor shall manage all contaminated materials as non-special waste as previously identified. <u>This work shall include monitoring and potential sampling, analytical testing, and management of petroleum contaminated material.</u>

The Contractor shall excavate and dispose of any soil classified as a non-special waste as directed by this project or the Engineer. Any excavation or disposal beyond what is required by this project or the Engineer shall be at the Contractor's expense. The preliminary site investigation (PSI) report, available through the District's Environmental Studies Unit, estimated the excavation quantity of non-special waste at the following location. The information available at the time of plan preparation determined the limits of the contamination and the quantities estimated were based on soil excavation for construction purposes only. The lateral distance is measured from centerline and the farthest distance is the offset distance or construction limit which ever is less. The Environmental Firm shall continuously monitor for worker protection and the Contractor shall manage and dispose of all soils excavated within the following areas as classified below. Any soil samples or analysis without the approval of the Engineer shall be at the Contractor's expense.

Added 02-24-2006

 Station 1124+40 to Station 1125+75 0 to 40 feet RT (Dollar General Store, 637 East Lincolnway [US 30]) – non-special waste. Contaminants of concern sampling parameters: BETX and PNAs.

Backfill pugs shall be place within the following locations.

 Station 1124+00 to Station 1126+00 0 to 40 feet RT (Dollar General Store, 637 East Lincolnway [US 30]) – non-special waste. Contaminants of concern sampling parameters: BETX and PNAs
