DETAIL NOTES

Drawings are not to scale.

Engineer shall verify all existing guardrail quantities in the field prior to beginning work.

All guardrail work shown in the details shall conform to various specifications, details, standards and specifications.

Shoulder Widening for Type 1 (Special) Terminals shall be constructed prior to construction of new guardrail. See Standard 630301-04 for Details.

Shoulder Widening shall be seeded with Class 2A and Class 7 Seed after completion.

No rock, stones, millings, or broken concrete shall be permitted within a vertical distance of 12" from the surface of the finished grade of the shoulder widening.
