The IDOT District One Geotechnical Unit has reviewed the revised Structure Geotechnical Report (SGR) prepared by Geo Services, Inc., dated October 28, 2021 for the above-referenced project. The report was revised based on comments from IDOT dated October 26, 2021 and provides geotechnical recommendations for the proposed roadway improvement project located at the intersection of Illinois Route 53 (IL 53) and Illinois Route 56 (IL 56) in Milton Township, DuPage County.

Based on the plans, Noise Wall 1 will have a height of 10 feet and will be mounted on top of a proposed retaining wall with a maximum exposed height of approximately 9 feet. Noise wall 2 will have a height of 10 feet and will be ground mounted.

After reviewing the revised SGR, we find that all previous comments have been addressed and the report is approved.

If you have any questions regarding this review, please contact Robert Claussen, P.E. at (847)705-4735 or Giancarlo Gierbolini, P.E. at (847) 705-4003.
