REMOVAL AND DISPOSAL OF REGULATED SUBSTANCES56

REMOVAL AND DISPOSAL OF REGULATED SUBSTANCES

Description. This work shall consist of the removal and disposal of regulated substances according to Section 669 of the Standard Specifications as revised below.

Contract Specific Work Areas. The excavated soil and groundwater within the work areas listed below shall be managed as either “uncontaminated soil”, hazardous waste, special waste or non-special waste. For stationing, the lateral distance is measured from centerline and the farthest distance is the offset distance or construction limit, whichever is less.

Soil Disposal Analysis. When the waste material requires sampling for landfill disposal acceptance, the Contractor shall secure a written list of the specific analytical parameters and analytical methods required by the landfill. The Contractor shall collect and analyze the required number of samples for the parameters required by the landfill using the appropriate analytical procedures. A copy of the required parameters and analytical methods (from landfill email or on landfill letterhead) shall be provided as Attachment 4A of the BDE 2733 (Regulated Substances Final Construction Report). The price shall include all sampling materials and effort necessary for collection and management of the samples, including transportation of samples from the job site to the laboratory. The Contractor shall be responsible for determining the specific disposal facilities to be utilized; and collect and analyze any samples required for disposal facility acceptance using a NELAP certified analytical laboratory registered with the State of Illinois.

The following contract specific work areas shall be monitored by the Environmental Firm for soil contamination and workers protection.

Site 3979-COV-3 – Railroad, 300-500 blocks of S. Oak Street, Chebanse, Iroquois County

- Station 417+52 to Station 629+81 (RT). All excavation in the southwest quadrant of 1st South and Old US 45 (Station 417+73 (RT)): The Engineer has determined this material meets the criteria of and shall be managed in accordance to Article 669.05(a)(5). Contaminants of concern sampling parameters: VOCs, SVOCs, and Metals.
- Station 417+52 to Station 629+81 (RT). All excavation at the following location (Station 522+00 (RT)): The Engineer has determined this material meets the criteria of and shall be managed in accordance to Article 669.05(a)(1). Contaminants of concern sampling parameters: VOCs, SVOCs, and Metals.

Site 3979-COV-9 – Agricultural Land, 3300 block of Old US 45, unincorporated Chebanse Township, Iroquois County

- Station 457+90 to Station 464+40 (LT). All excavation at the following location (Station 458+00 (LT)): The Engineer has determined this material meets the criteria of and shall be managed in accordance to Article 669.05(a)(1). Contaminants of concern sampling parameters: VOCs, SVOCs, and Metals.

Site 3979-COV-36 – Commercial Building, 275 S. Main Street, Clifton, Iroquois County

- Station 665+40 to Station 667+20 (LT). All excavation in the northeast quadrant of Old US 45 and Third Avenue: The Engineer has determined this material meets the criteria of and shall be managed in accordance to Article 669.05(a)(1). Contaminants of concern sampling parameters: VOCs, SVOCs, and Metals.

Added June 6, 2022

Site 3979-COV-38 – Commercial Buildings, 337-343 S. Main Street, Clifton, Iroquois County

- Station 667+20 to Station 670+81 (LT). All excavation in the southeast quadrant of Old US 45 and Third Avenue: The Engineer has determined this material meets the criteria of and shall be managed in accordance to Article 669.05(a)(1). Contaminants of concern sampling parameters: VOCs, SVOCs, and Metals.

Site 3979-COV-48 – Vacant Lot, 105 E. Fifth Avenue, Clifton, Iroquois County

- Station 673+68 to Station 674+50 (LT). All excavation in the northeast quadrant of Old US 45 and Fifth Avenue: The Engineer has determined this material meets the criteria of and shall be managed in accordance to Article 669.05(a)(5). Contaminants of concern sampling parameters: VOCs, SVOCs, and Metals.

Site 3979-COV-50 – Orthomotion Technology, 505 S. Main Street, Clifton, Iroquois County

- Station 674+50 to Station 676+55 (LT). All excavation in the southeast quadrant of Old US 45 and Fifth Avenue: The Engineer has determined this material meets the criteria of and shall be managed in accordance to Article 669.05(a)(1). Contaminants of concern sampling parameters: VOCs, SVOCs, and Metals.

Work Zones

Three distinct OSHA HAZWOPER work zones (exclusion, decontamination, and support) shall apply to projects adjacent to or within sites with documented leaking underground storage tank (LUST) incidents, or sites under management in accordance with the requirements of the Site Remediation Program (SRP), Resource Conservation and Recovery Act (RCRA), or Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), or as deemed necessary. For this project, the work zones apply for the following ISGS PESA Sites:

None

Additional information on the contract specific work areas listed above collected during the regulated substances due-diligence process is available through the District's Environmental Studies Unit (DESU).
