**IDOT PROJECT LABOR AGREEMENT DETERMINATION**

To: Omer Osman, Secretary

From: Jose Rios, Region One Engineer

Date: 5/9/2024

Re: FAI 90 – Interstate 90 (Kennedy Expressway), I-94 to Hubbard Street (Outbound Lanes), Contract Number 62K73, Cook County

{Letting: August 2, 2024

Completion Date: October 31, 2025}

---

In accordance with the Project Labor Agreement Act (30 ILCS 571), it is recommended that a project labor agreement (PLA) be utilized for the above-captioned Project. This recommendation is based on the considerations indicated below.

- 1) The Project is being awarded and administered by IDOT (i.e., not by another governmental agency).
- 2) The Project is being constructed using state or local funds only (i.e., no federal funds).
- 3) The overall size, scope, sequencing, logistics or other aspects of the Project make it particularly challenging to manage, and use of a PLA is expected to help assure that the construction work is performed properly and efficiently under the circumstances. See attachment A below.
- 4) The duration of construction activity on the Project is expected to exceed one construction season (i.e., 110 or more working days), or the nature of the Project results in a heightened need for labor force continuity and stability over a substantial period of time.
- 5) There is a firm construction completion date established for the Project thereby increasing the adverse consequences of any work stoppage or other labor disruption.
- 6) The time required to complete the Project is expected to extend beyond the expiration date of one or more existing collective bargaining agreements covering trades likely to be involved in the Project, thereby increasing the likelihood of work stoppage(s) or other labor disruption(s) during construction of the Project.
- 7) In the absence of a PLA, there is an increased likelihood of jurisdictional disputes among unions or of conflict between unionized and non-unionized workers on the Project that could have a potentially material adverse effect on the time, cost, or quality of work performed on the Project.

Item [Click here to enter text.](#)  
Fed. Proj. No. **WKBE(580)**

8) This project presents specific safety concerns to the traveling public and a PLA, will ensure labor force continuity and stability, decreasing the length of the safety concern.

9) Use of a PLA is expected to result in improved access to skilled labor, improved efficiency, or improved safety performance on the Project.

10) Use of a PLA on the Project is not expected to have a material adverse effect on the competitive bidding process.

11) Use of a PLA on the Project is not expected to have a material adverse effect on the ability of the Department to achieve other Departmental goals (e.g., utilization of disadvantaged businesses, utilization of Illinois domiciled businesses, development of competitive vendor alternatives over time, etc.).

12) There are other material considerations favoring or disfavoring use of a PLA on this Project as follows:

---

---

---

Based upon the identified considerations, we recommend that you approve use of a PLA on this Project. Upon your approval, the Department shall undertake to negotiate in good faith a PLA with the relevant labor organization(s), and shall include in all necessary bid specifications and other documents information regarding the actual or form of PLA that is to binding upon all contractors and their employees.

**Attachment A**

The use of Project Labor Agreement (PLA) for Contract 62K73 is consistent with all State and Local statutory and regulatory requirements.

**Item 3:** This project includes both State and Federal funding and the programmed cost for this project is estimated at \$41,100,000.

This project consists of bridge deck scarification and overlay, bridge deck repairs and joint repairs, parapet repairs, substructure repairs, bridge drainage system repairs, adjusting bridge scuppers, structural steel repairs, PPC I-Beam Repairs, FRP Strengthening of PPC I-Beams, slopewall repairs, retaining wall repairs, approach slab repairs, pavement patching, SMA placement on the bridge approach pavements, Sign Maintenance, Overhead Sign Structure relocation, ITS, lighting, electrical and all incidental and collateral work necessary to complete the project as shown in the plans and as described herein. Traffic will be maintained on I-90/94 using staging. Work is on the outbound lanes of I-90/94 (Kennedy Expressway).

The project is located in the City of Chicago, Cook County, Illinois.

**Item 5:** The completion date is October 31, 2025 plus 10 working days for punch list and clean-up items. The Contractor will not be allowed to proceed with any work that requires permanent lane closures prior to March 31, 2025.
