Contract #66998

Operations Division

SUBJECT: CEMVR-OD-P-2013-879

Mr. Paul Loete, P.E.
 Illinois Department of Transportation
 700 East Norris Drive
 Ottawa, Illinois 61350

Dear Mr. Loete:

Our office reviewed all information provided to us/in your application received June 10, 2013, concerning the proposed replacement of SN 006-0011 and 006-0012 with SN 006-0184 and 006-0185 over the Hennepin Canal in Section 18, Township 18 North, Range 11 East, Bureau County, Illinois.

Your project is covered under Nationwide Permit No.14, as published in the enclosed Fact Sheet No. 7 (IL), provided you meet the general and regional permit conditions for the nationwide permits which are also included in the Fact Sheet. You must also comply with the special conditions listed below. The Corps has also made a determination of no effect on federally threatened and endangered species or critical habitat. The Illinois Environmental Protection Agency (IEPA) has also issued Section 401 Water Quality Certification with conditions for this nationwide permit. Please note these additional conditions included in the Fact Sheet. The decision regarding this action is based on information found in the administrative record, which documents the District's decision-making process, the basis for the decision, and the final decision.

Please contact our office if the project plans change and there are different impacts caused by dredged or fill material into Corps' regulated waters. This may change your Department of the Army 404 authorization.

Special Conditions:

You are encouraged to conduct your construction activities during a period of low flow. You are required to remove all fill material used as a temporary crossing, causeway, or work pad to an upland, non-wetland site, to seed all disturbed areas with native grasses, and to implement appropriate measures to insure that sediments are not introduced into waters of the United States during construction of this project.

Bank and shoreline protection shall consist of suitable clean materials, free from debris, trash, and other deleterious materials. If broken concrete is used as riprap, all reinforcing rods must be cut flush with the surface of the concrete, and individual pieces of concrete shall not exceed 3 feet in any dimension. Asphalt, car bodies, and broken concrete containing asphalt are specifically excluded from this authorization.

-2-

This verification is valid until March 18, 2017, unless the nationwide permit is modified, reissued or revoked. It is your responsibility to remain informed of changes to the nationwide permit program. We will issue a public notice announcing any changes if and when they occur. Furthermore, if you commence or are under contract to commence this activity before the date the nationwide permit is modified or revoked, you will have twelve months from this date to complete your activity under the present terms and conditions of this nationwide permit. If your project plans change, you should contact our office for another determination.

This authorization does not eliminate the requirement that you must still acquire other applicable Federal, state, and local permits. If you have not already coordinated your project with the IADNR, please contact Mr. Kelly Stone in writing or telephone 515/281-4312 to determine if a floodplain development permit is required for your project. You should also contact Ms. Kelly Poole, of the IADNR Sovereign Lands Division in writing or telephone 515/281-8967 to determine if a sovereign lands construction permit is required or if this project may adversely impact Iowa threatened or endangered species or their habitat.

You are required to complete and return the enclosed "Completed Work Certification" form upon completion of your project in accordance with General Condition No. 30 of the nationwide permits.

The Rock Island District Regulatory Branch is committed to providing quality and timely service to our customers. In an effort to improve customer service, please take a moment to complete the attached postcard and return it or go to our Customer Service Survey found on our web site at <http://per2.nwp.usace.army.mil/survey.html>. (Be sure to select "Rock Island District" under the area entitled: Which Corps office did you deal with?)

Should you have any questions, please contact our Regulatory Branch by letter, or telephone me at 309/794-5859.

Sincerely,

Albert J. Frohlich
Project Manager
Enforcement Section
