

Contents

Executive Summary	ES-1
1. Purpose of and Need for Improvements	1-1
1.1 Introduction	1-1
1.2 Transportation Purpose and Need	1-2
1.2.1 Regional and Local Travel	1-3
1.2.2 Travel Efficiency	1-4
1.2.3 Access to O'Hare from the West	1-6
1.2.4 Modal Opportunities and Connections	1-7
2. Affected Environment	2-1
2.1 Socioeconomic Characteristics	2-1
2.1.1 Demographics.....	2-1
2.1.2 Economic Characteristics	2-2
2.1.3 Land Use.....	2-4
2.1.4 Environmental Justice.....	2-7
2.1.5 Public Services and Facilities.....	2-9
2.1.6 Transportation Facilities.....	2-9
2.2 Agriculture	2-12
2.3 Water Resources and Quality	2-13
2.3.1 Water Resource and Watershed Characterization.....	2-13
2.3.2 Groundwater Resources.....	2-18
2.3.3 Groundwater Quality	2-18
2.3.4 Water Supply Wells	2-18
2.3.5 Aquatic Species.....	2-19
2.4 Wetlands.....	2-20
2.4.1 Addison Creek Watershed.....	2-23
2.4.2 Des Plaines River Watershed.....	2-23
2.4.3 Salt Creek Watershed	2-23
2.4.4 West Branch DuPage River Watershed.....	2-24
2.4.5 Willow Creek Watershed	2-24
2.5 Floodplains.....	2-24
2.6 Biological Resources	2-25
2.6.1 Vegetation and Cover Types	2-25
2.6.2 Wildlife	2-26
2.6.3 Threatened and Endangered Species	2-29
2.7 Special Lands	2-30
2.7.1 Forest Preserves.....	2-32
2.7.2 Parks.....	2-33
2.7.3 Illinois Nature Preserves.....	2-33
2.7.4 Illinois Natural Areas	2-33
2.8 Visual Resources.....	2-34

2.9	Air Quality	2-35
2.10	Noise	2-38
2.10.1	Noise Sources and Existing Conditions.....	2-38
2.10.2	Potentially Noise-Sensitive Resources.....	2-39
2.11	Cultural Resources.....	2-39
2.11.1	Archaeological Resources.....	2-39
2.11.2	Architectural Resources.....	2-40
2.12	Special Waste.....	2-40
3.	Alternatives/Preferred Alternative.....	3-1
3.1	Alternatives Development Process Overview.....	3-2
3.2	Roadway Alternatives Development, Evaluation, and Screening.....	3-3
3.2.1	Module 1 – Identifying Strategies	3-3
3.2.2	Module 2 – Purpose and Need Screening	3-4
3.2.3	Module 3 – Refinement, Evaluation, and Screening of Roadway Alternatives	3-5
3.3	Multimodal Alternatives Development, Evaluation, and Screening	3-15
3.3.1	Level One: Development of Transit Corridors and Screening.....	3-15
3.3.2	Level Two: Refinement of Transit Corridors and Screening.....	3-17
3.3.3	Level Three: Refinement of Transit Corridors and Screening.....	3-19
3.4	Alternatives Carried Forward to the Draft EIS.....	3-19
3.4.1	No-Action Alternative	3-19
3.4.2	Build Alternatives.....	3-21
3.4.3	Cost	3-33
3.4.4	Financing Strategies	3-33
3.5	Module 4 – Identification of a Preferred Alternative.....	3-35
3.5.1	South Bypass Connection	3-35
3.5.2	Build Alternative.....	3-37
3.5.3	Conclusion	3-40
3.5.4	Implementation Strategy and Tier Two Studies	3-41
4.	Environmental Consequences.....	4-1
4.1	Socioeconomic Impacts.....	4-2
4.1.1	Population, Households, and Employment.....	4-2
4.1.2	Displacements	4-4
4.1.3	Community and Land Use Impacts	4-6
4.1.4	Environmental Justice	4-11
4.1.5	Economic Impacts.....	4-15
4.1.6	Public Facilities	4-20
4.2	Water Resources and Quality	4-20
4.2.1	Groundwater Resources	4-20
4.2.2	Surface Water Resources	4-22
4.3	Wetlands	4-31
4.3.1	Affected Wetlands	4-32
4.3.2	Wetland Functions and Values.....	4-36
4.3.3	Threatened and Endangered Species within Wetland Areas.....	4-38
4.4	Floodplains	4-39

4.5	Biological Resources	4-41
4.5.1	Vegetation and Cover Types	4-41
4.5.2	Wildlife	4-45
4.5.3	Threatened and Endangered Species	4-49
4.6	Section 4(f)	4-49
4.6.1	Section 4(f) Applicability	4-50
4.6.2	Description of Section 4(f) Properties	4-51
4.6.3	Potential Impacts to Section 4(f) Properties	4-54
4.6.4	Avoidance Alternatives	4-55
4.6.5	Measures to Minimize Harm	4-56
4.6.6	Potential Future Section 4(f) Resources in the Study Area	4-58
4.6.7	Least Overall Harm Analysis	4-59
4.7	Non-Section 4(f) Special Lands and Section 6(f) and OSLAD Considerations	4-61
4.8	Noise	4-61
4.8.1	Traffic Noise Impact Analysis	4-61
4.8.2	Traffic Noise Abatement Strategies	4-63
4.9	Visual Resources	4-63
4.9.1	Visual Resource Analysis	4-63
4.9.2	Visual Impact Assessment	4-64
4.10	Special Waste	4-65
4.10.1	Hazardous Waste Sites	4-65
4.10.2	Nonhazardous Sites	4-66
4.11	Construction Impacts	4-67
4.11.1	Transportation	4-67
4.11.2	Water Resources	4-67
4.11.3	Air Quality	4-68
4.11.4	Construction Noise	4-69
4.11.5	Solid Waste	4-69
4.11.6	Utility Services	4-70
4.11.7	Energy	4-70
4.12	Indirect and Cumulative Impacts	4-70
4.12.1	Approach	4-70
4.12.2	Indirect Effects	4-75
4.12.3	Cumulative Effects	4-78
4.12.4	Conclusion	4-87
4.13	Mitigation Concepts and Commitments	4-88
4.13.1	Traffic	4-88
4.13.2	Land Use	4-88
4.13.3	Relocations	4-88
4.13.4	Water Quality and Hydrology	4-89
4.13.5	Wetland Mitigation	4-90
4.13.6	Floodplain Mitigation	4-92
4.13.7	Biological Resources	4-93
4.13.8	Special Lands	4-94
4.13.9	Visual Resources	4-94
4.13.10	Air Quality	4-95
4.13.11	Noise	4-95

4.13.12 Special Waste.....	4-95
4.13.13 Borrow and Disposal.....	4-96
4.14 Permits / Certifications.....	4-96
4.15 Relationship of Short-Term Uses versus Long-Term Productivity	4-97
4.16 Irreversible and Irretrievable Commitments of Resources.....	4-99
4.17 Summary of Environmental Consequences.....	4-99
5. Coordination.....	5-1
5.1 Compliance with Federal Coordination Regulation.....	5-1
5.1.1 Cooperating Agencies.....	5-1
5.1.2 Participating Agencies	5-2
5.1.3 Agencies Declining Invitation to Participate	5-3
5.2 Federal, State, and Local Agency Coordination.....	5-4
5.2.1 NEPA / 404 Merger Process	5-4
5.2.2 Project Working Groups	5-10
5.3 The Public and Interested Groups.....	5-11
5.3.1 Core Community Meetings.....	5-11
5.3.2 Stakeholder Workshops.....	5-13
5.3.3 Meetings with Other Agencies	5-17
5.3.4 Speakers Bureau.....	5-20
5.3.5 Public Information Meetings	5-21
5.3.6 Newsletters	5-23
5.3.7 Web Site.....	5-24
5.3.8 Mailing List.....	5-24
5.4 Draft EIS Comments.....	5-24
5.4.1 Resource/Regulatory Agency Comments	5-24
5.4.2 Local/Other Agency Comments	5-26
5.4.3 Other Stakeholder Comments.....	5-29
5.5 Results of Coordination Activities	5-30
6. References.....	6-1
7. List of Preparers	7-1

Tables

S-1 Systemwide Travel Performance for Alternative 203	ES-8
S-2 Economic Impacts from Construction of Alternative 203.....	ES-9
S-3 Summary of Environmental and Social Effects of Alternative 203 with Option D.....	ES-9
1-1 Technical and Stakeholder Problem Statements	1-2
1-2 Study Area Daily Trips by Trip Origin and Destination: 2007 and 2030	1-3
1-3 Traffic Congestion P.M. Peak Period: 2007 and 2030.....	1-4
1-4 Travel Time/Speed from the West Side of O'Hare Airport to Study Area Locations	1-5
1-5 Transit Mode Split.....	1-7

2-1	Chicago Region Population Growth by County	2-2
2-2	Population and Household Projections for the Core Communities in the Study Area	2-2
2-3	Major Employers within the Core Communities in the Study Area.....	2-3
2-4	Employment Projections for the Core Communities in the Study Area	2-4
2-5	Land Use in the Study Area	2-4
2-6	Land Use within the Core Communities in the Elgin O’Hare–West Bypass Study Area	2-6
2-7	Comparison of the Demographics of the Core Communities in the Elgin O’Hare–West Bypass Study Area to DuPage and Cook Counties and the State of Illinois.....	2-8
2-8	1999 Median Household Income for the Core Communities in the Study Area	2-7
2-9	Poverty Levels (percentages) in the Core Communities in the EO-WB Study Area	2-9
2-10	Traffic Congestion P.M. Peak Period: 2007 and 2030	2-10
2-11	Commuter and Bus Routes in Study Area.....	2-10
2-12	O’Hare Airport Air Transportation in the Study Area: 2007	2-12
2-13	Study Area Waterway Summary	2-13
2-14	Study Area Watershed Land Use Summary.....	2-15
2-15	Study Area Waterway Quality/Rating Summary	2-16
2-16	Summary of Wetlands and Watersheds by County	2-22
2-17	Summary of Field Reconnaissance for Wetlands Near Proposed Improvements	2-22
2-18	Summary of Floodplain Areas Located Near Proposed Improvements	2-24
2-19	Land Cover within the Study Area.....	2-25
2-20	State-Listed Species Potentially within the Study Area as Identified by IDNR	2-29
2-21	County Forest Preserves and Associated Nature Preserves and INAI Sites within the Study Area.....	2-31
2-22	Summary of Regional Trails Crossing Through Forest Preserve Land within the Study Area.....	2-32
2-23	National Ambient Air Quality Standards	2-35
2-24	2008 Status on Air Quality Pollutants.....	2-36
2-25	Noise Abatement Criteria Hourly A-Weighted Sound Level.....	2-38
2-26	Special Waste Sites within the Study Area	2-41
3-1	Travel Performance Evaluation Criteria	3-4
3-2	Initial Roadway System Strategies: Purpose and Need Screening Results.....	3-5
3-3	Initial Roadway System Strategies: Number of Potential Building Displacements	3-6
3-4	Finalist Roadway System Alternatives: Total Scaled Score.....	3-7
3-5	Qualitative Analysis: System Expansion Improvement Alternatives.....	3-9
3-6	Relevant Qualitative Factors: Combined System Improvement Alternatives.....	3-10
3-7	Comparing the North Leg Improvements for Alternatives 401 and 402.....	3-12
3-8	Level One Screening Criteria	3-16
3-9	Alternatives Subject to Fatal Flaw and Level One Screening.....	3-16

3-10	Alternatives Subject to Level Two Screening.....	3-18
3-11	2030 Roadway and Transit Baseline Projects Included in the No-Action Alternative	3-20
3-12	Summary of Interchange Improvements for Alternative 203 in the Elgin O'Hare Expressway Section	3-22
3-13	Proposed Transit Improvements	3-25
3-14	Proposed Transportation Transfer/ Intermodal Facilities.....	3-27
3-15	Additional Park and Ride Facilities.....	3-29
3-16	Environmental Consequences of Options A and D	3-36
3-17	Socioeconomic Consequences of Options A and D	3-36
3-18	Build Alternatives Systemwide Travel Performance Comparisons	3-37
3-19	Summary of Environmental Consequences	3-38
3-20	Summary of Socioeconomic Impacts and Benefits.....	3-39
3-21	Summary of Public, Municipality, and Agency Comments and Resolutions.....	3-40
4-1	Study Area Population, Household, and Employment Changes by Alternative	4-4
4-2	Displacements per Build Alternative and South Bypass Connection Option.....	4-5
4-3	Land Use Impacts per Build Alternative and South Bypass Connection Option....	4-10
4-4	Comparison of Build Alternative and South Bypass Connection Option Demographic Characteristics to Those of DuPage County, Cook County, and the State of Illinois.....	4-12
4-5	Comparison of Build Alternative and South Bypass Connection Option Income Characteristics to Those of DuPage County, Cook County, and the State of Illinois	4-13
4-6	Economic Impacts from Construction	4-17
4-7	Employee Loss per Community by Build Alternative and South Bypass Connection Option.....	4-17
4-8	Worst Case Economic Impacts from Employee Displacement by Build Alternative and South Bypass Connection Option (2009 \$).....	4-18
4-9	Tax Revenue Loss per Alternative and South Bypass Connection Option (2007 \$).....	4-19
4-10	Noncommunity and Private Water Wells within 200 feet of the Build Alternatives and South Bypass Connection Options.....	4-21
4-11	Community Water Supply Wells near the Build Alternatives and South Bypass Connection Options.....	4-22
4-12	Summary of Stream Crossings by Build Alternative, South Bypass Connection Option, and Watershed	4-22
4-13	Summary of Impacts to Surface Waters and Water Basins by Build Alternative, South Bypass Connection Option, and Watershed	4-24
4-14	Summary of Detention Parameters by Build Alternative and South Bypass Connection Options A and D	4-26
4-15	Wetland Summary by Build Alternative and Watershed	4-32
4-16	Summary of Wetland Community Type Impacts and Regulatory Status by Build Alternative.....	4-33
4-17	Potential Wetland Impacts by South Bypass Connection Options A and D	4-35
4-18	Summary of Floodplain/Floodway Encroachment by Build Alternative and South Bypass Connection Option in Cook County	4-39

4-19	Summary of Floodplain/Floodway Encroachment by Build Alternative and South Bypass Connection Option in DuPage County	4-40
4-20	Summary of Floodplain Encroachment by Waterway and Assessment Category.....	4-40
4-21	Land Cover Impacts by Build Alternative	4-42
4-22	Land Cover Impacts Associated with the South Bypass Connection Options	4-45
4-23	Potential Impacts to Section 4(f) Properties.....	4-53
4-24	Noise-Sensitive Residential Areas and Non-residential Receptors per Build Alternative.....	4-62
4-25	Noise-Sensitive Residential Areas and Non-residential Receptors per South Bypass Connection Option.....	4-62
4-26	Nonhazardous Waste Sites within the Build Alternative and South Bypass Connection Option Footprints.....	4-66
4-27	Potential Cumulative/Indirect Effects	4-72
4-28	Cause and Effect for Resources, Ecosystems and Human Communities.....	4-73
4-29	Affected Environment.....	4-74
4-30	Cumulative Economic Impacts from Build Alternatives Construction per Year	4-79
4-31	IDNR Wetland Compensation Ratios.....	4-91
4-32	Summary of Environmental Consequences	4-99
5-1	Section 6002	5-2
5-2	Agencies that Declined Participating Agency Status or Did Not Respond to the Invitation.....	5-3
5-3	Meetings and Coordination with Resource Agencies and Other Organizations	5-6
5-4	Core Agency Meetings.....	5-12
5-5	Stakeholder Activities	5-14
5-6	Meetings with Other Agencies	5-17
5-7	Speakers Bureau Meetings	5-21
5-8	Newsletters.....	5-23

Exhibits

1-1	Study Area Map
1-2	Study Area Congested Roadways (2007) P.M. Peak Period
1-3	Study Area Congested Roadways (2030 Baseline) P.M. Peak Period
1-4	Issues Identified by Stakeholders
1-5	Travel Times from O’Hare West Terminal (2030 Baseline) P.M. Peak Period
1-6	Accessibility from Freeway Interchanges within the Study Area (Contours) Congested Travel Times P.M. Peak Period
1-7	Interchange Locations in the Study Area
2-1	Study Area versus Areas of Detailed Evaluation
2-2	Environmental Features in the Study Area
2-3	Community Resources in the Study Area
2-4	Existing Land Use
2-5	Public Transit Map
2-6	Freight System Map

2-7	Surface Water Resources
2-8	Wetlands
2-9	Floodplains
2-10	Special Lands
2-11	Noise-Sensitive Non-Residential Receptors and Residential Areas
2-12	Special Waste Sites
3-1	Alternative Development and Evaluation Process
3-2	Original Study Area and Revised Study Area Map
3-3	Stakeholder Workshop Results – Roadway Strategies
3-4A-I	Initial Roadway System Strategies
3-5A	O'Hare West Bypass North Connection Options (December 2008)
3-5B	O'Hare West Bypass South Connection Options (December 2008)
3-6	O'Hare West Bypass South Connection Options (January 2009)
3-7	March 2008 Stakeholder Workshop Results – Transit Strategies
3-8	2030 Baseline – Roadway Projects Map
3-9	2030 Baseline – Transit Projects Map
3-10	Build Alternative 203
3-11	Build Alternative 402
3-12A	South Bypass Connection Option A
3-12B	South Bypass Connection Option D
3-13	Elements Proceeding to Tier Two
3-14	Bicycle/Pedestrian Improvements - Regional Trails
3-15	Bicycle/Pedestrian Improvements - Community Trails
3-16	Illustration of Footprint Changes Since Publication of Draft EIS
3-17	Preferred Alternative – Alternative 203 with Option D
3-18	Build Alternatives Average Daily Traffic Forecast (2030)
3-19	Travel Performance Comparison of Build Alternatives to No-Action Alternative (2030 P.M. Peak Period)
4-1A-E	Impact Summary Exhibit
4-2	Potential Business and Residential Displacements
4-3A	Percentage of Minority Population by Census Block
4-3B	Percentage of Asian Population by Census Block
4-3C	Percentage of Hispanic Population by Census Block
4-4	Median Family Income by Census Block Group
4-5	Potentially Impacted Surface Water Resources
4-6	Potentially Impacted Wetlands
4-7	Potentially Impacted Forest Land and Urban Open Space
4-8	Potentially Impacted Special Lands
4-9	Potentially Impacted Noise-Sensitive Non-Residential Receptors and Residential Areas
4-10	Potentially Impacted Special Waste Sites

Appendices

- A Geographic Information System Source List
- B Methodology Paper
- C Study Area Bird List
- D Correspondence
- E Alternatives to be Carried Forward Technical Report
- F Supporting Improvements
- G FAA 7460 Review
- H Wetland Impacts
- I Scoping Summary and Agency Scoping Meeting Minutes
- J Distribution List
- K Index
