

INDEX TO CITIES AND VILLAGES. A multi-column list of cities and villages in Illinois, organized by county. Each entry includes the name of the city/village, the county it is located in, and a small circle representing its location on the map. The list covers major metropolitan areas like Chicago and Springfield, as well as smaller towns throughout the state.

POINTS OF INTEREST. A list of notable locations and landmarks in Illinois. The list is organized by county and includes historical sites, parks, and other significant locations. Each entry is accompanied by a small circle indicating its location on the map.

STATE HISTORICAL MONUMENTS. A list of historical monuments and landmarks in Illinois, organized by county. The list includes the name of the monument, its location, and a small circle indicating its position on the map.

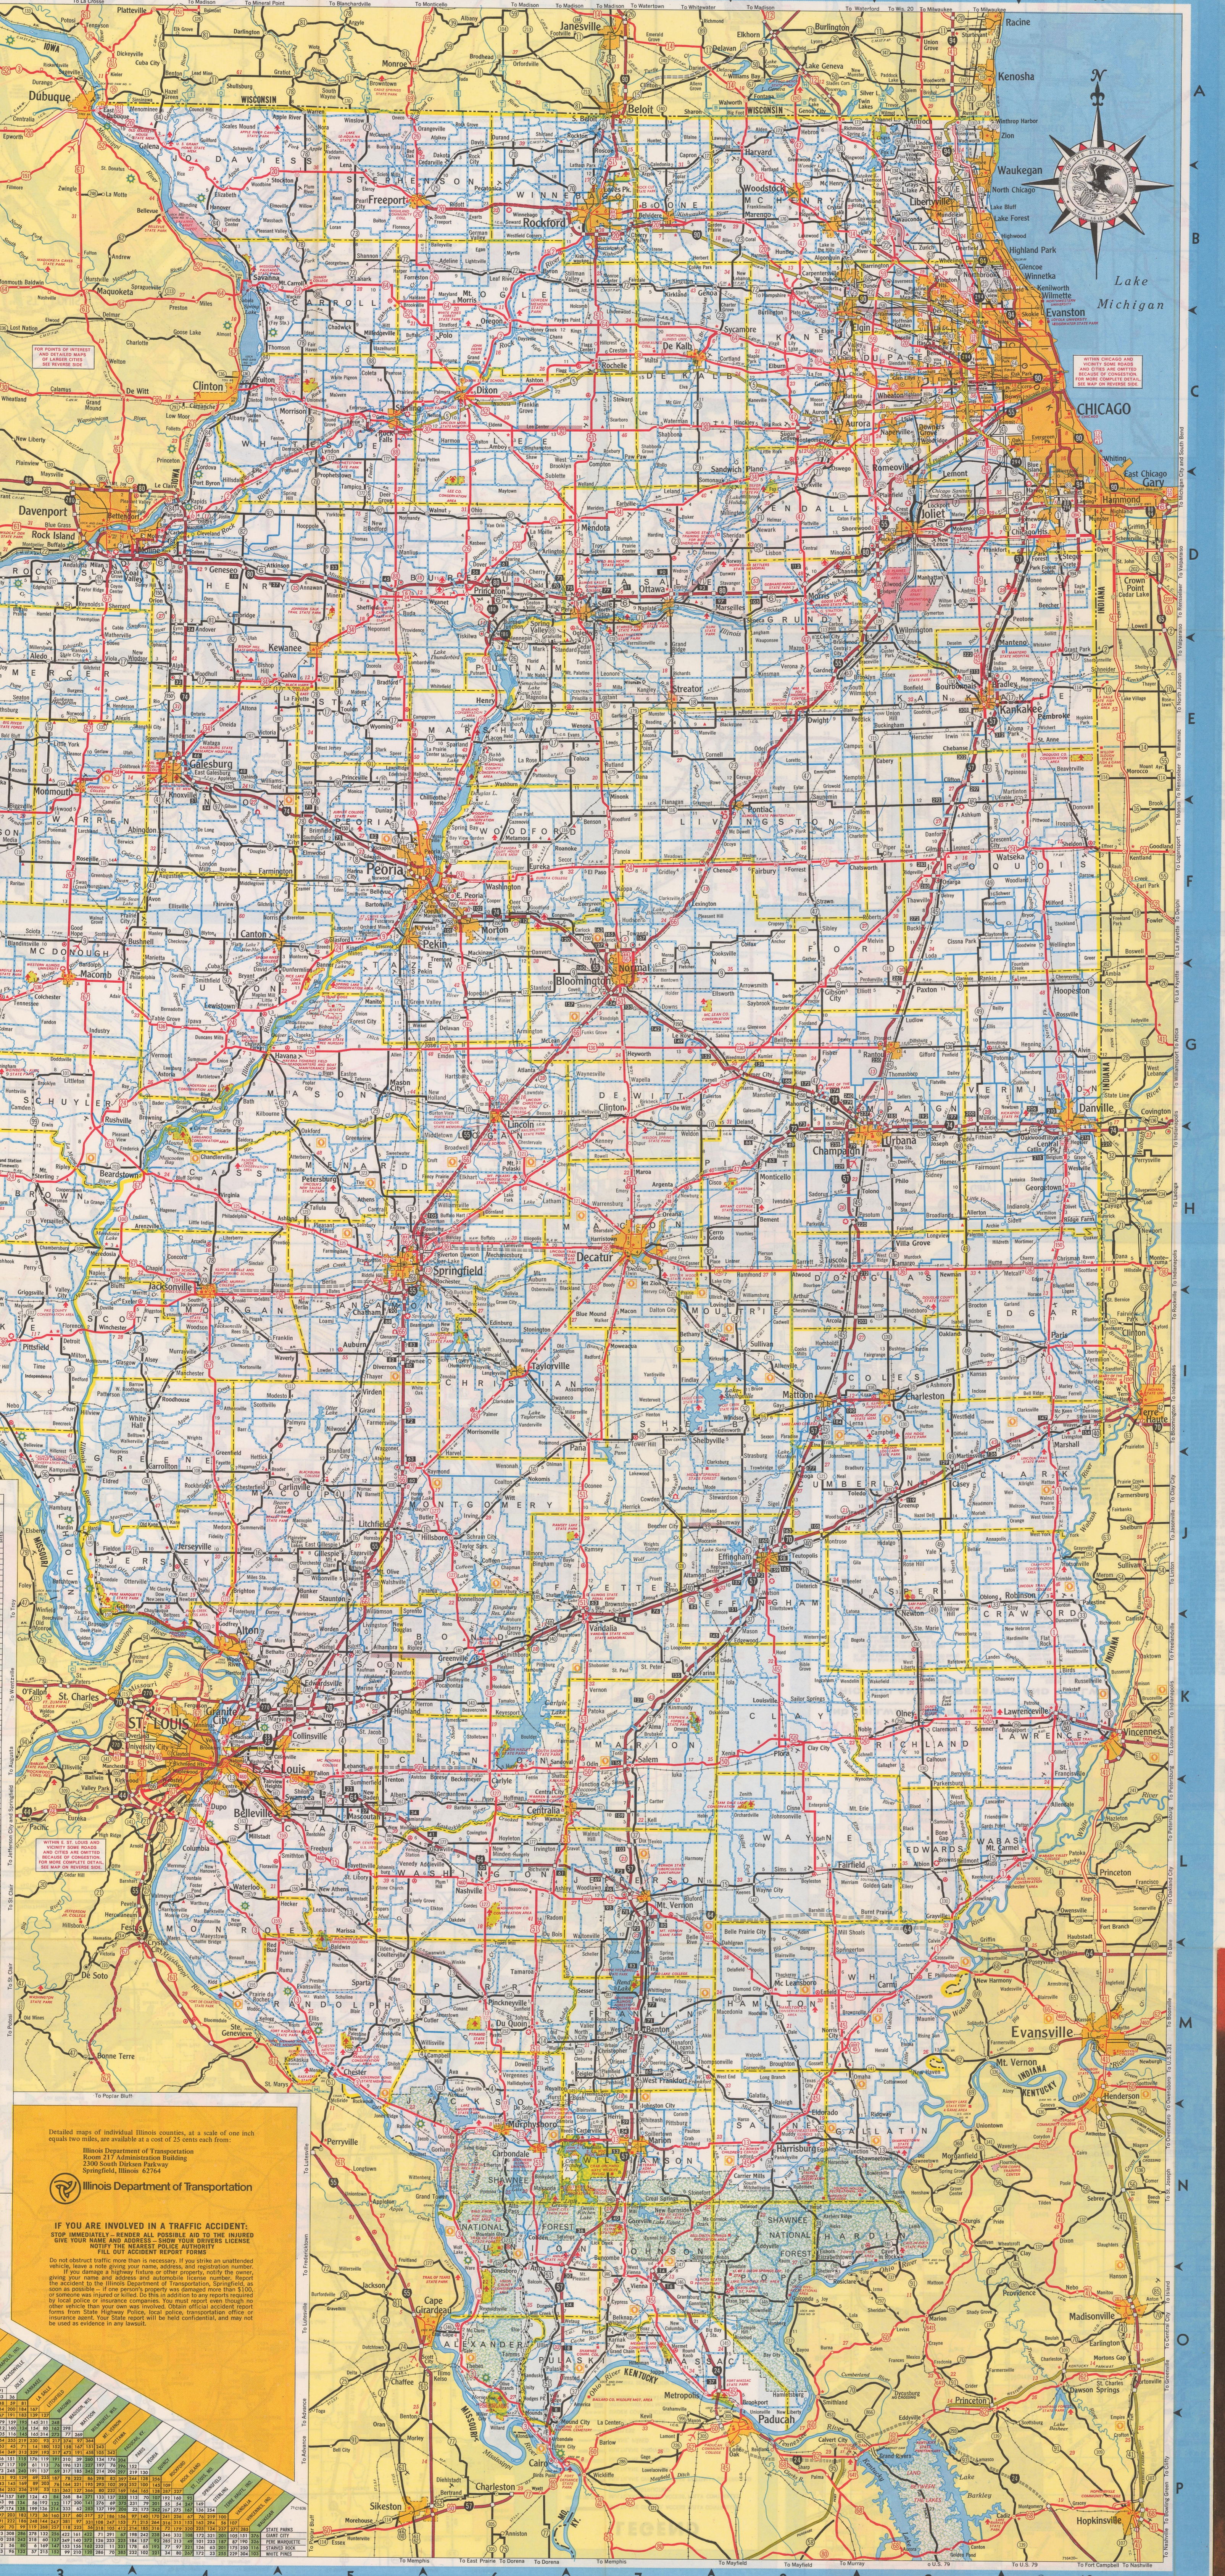

In 1776, the Indians were displaced, and the territory that is now Illinois had been claimed from the French by the Province of Virginia.

LEGEND. A detailed key for the map's symbols and colors. It defines various types of roads (Principal Through Highways, Other Through Highways, etc.), route markers, access points, and population symbols. It also includes a note about the map's copyright (1975 by State of Illinois).

RECREATION AREAS. A table listing Illinois State Parks and Conservation Areas. The table includes columns for the name of the area, its location, acreage, and other details. It provides a comprehensive overview of the state's recreational resources.

ILLINOIS CONSERVATION AREAS. A table listing various conservation areas in Illinois, including their names, locations, and acreage. This table complements the Recreation Areas table by providing more specific information about protected natural spaces.

MILEAGE DISTANCE CHART. A grid-based chart showing the distances between various cities and towns in Illinois. The chart is organized by county and provides a quick reference for travel distances across the state.
